Financial Report
For the Fiscal Year Ended

December 31, 2020

Christopher P. Morill

Executive Director/CEO

July 18, 2022

To the Honorable City Commission and Citizens of El Dorado:

On September 11, 2021, the City of El Dorado proudly crossed the Sesquicentennial anniversary since its founding as a municipality in Kansas in 1871. El Dorado experienced few years like the period encapsulating 2020 and 2021 during its 150 years as a city. The global pandemic created the storyline that ruled the headlines and affected families, institutions, and businesses.

As we look back on the past year, there can be no doubt that COVID influenced our lives (and the City's financial situation) more than any other topic or issue. No one had experienced a pandemic the likes of COVID, so it was good to see the virus lose momentum in 2021. The world was quick to wake from the tension caused by our collective response to the pandemic. It was time for a recovery both socially and economically.

My intent in writing this year's letter is to discuss COVID only to the extent it affected the City's finances in a significant manner. We are all COVID fatigued and the year cannot be completely defined by the pandemic. As such, this year's letter will focus on topics largely outside of the public health emergency.

Sales Taxes, the Not-Quite Panacea

I often hear a justifying response like "the City will generate quite a bit of sales tax from this endeavor" when an idea or project surfaces that requires considerable investment by the City. The aphorism is so frequent and comes with such ease that I thought I would take a moment to cull the habit of declaring the return on sales taxes from a specific project or initiative.

The City of El Dorado generates one percent, or \$0.01 for every \$100, of retail sales that occur within its corporate limits. This explains why shopping local helps fund government operations and projects. As an added benefit, the small act of shopping at local establishments enables small businesses in El Dorado to stay open and keeps family, friends, and neighbors employed. The City also receives compensating use tax from purchases made outside the City and delivered to a location in El Dorado.

Over the course of a year, the one-cent sales tax generates approximately \$2.6 million from \$260 million in aggregate retail sales. The City, by ordinance, distributes the proceeds of the one-cent sales tax as follows: \$1.65 million to property tax reduction, \$600,000 to street maintenance, and \$100,000 to economic development.

The City allocates any funds in excess of these amounts to the City's Excess Sales Tax Program to fund various capital and special projects at the recommendation of the Excess Sales Tax Committee. The City Commission considers the committee's recommendations and has final approval of projects funded through the program. Over the prior five years, the City allocated an average of \$268,960 towards special projects from so-called excess sales taxes.

Voters first approved the City's one-cent sales tax in 1990. The sales tax became effective for five years before requiring another vote reauthorizing it. Voters have overwhelmingly approved the one-cent sales tax every time it has come up for a public vote. The City appreciates the public support for the sales tax, and thanks residents for choosing to support local businesses. These purchases enable the City to invest in public infrastructure that assist in making El Dorado a great place.

Even so, the one-cent sales tax is not quite the panacea advertised when projects and proposals spring up. As an example, let us imagine an event that generates quite a bit of interest from the community and surrounding region. The heralded event creates such an outpouring of interest that 3,000 people descend upon El Dorado to attend the revelry. These out-of-town patrons each elect to imbibe in purchasing souvenirs, food, and drink valued at \$500 during their stay in El Dorado. Sales tax from this terrifically attended event generates \$15,000 in sales tax.

Please do not assume that I take this newly generated \$15,000 in sales tax lightly. Indeed, it would be a terrific amount of sales tax to receive from such an eclectic event! In all probability, this scenario is unlikely, as not all of the patrons will spend \$500 during their time in El Dorado. Even if they do, other residents will elect to leave town during the hubris (or during other times throughout the year) taking their children and wallets with them. In other words, the patron purchases largely offset leakage from residents who visit another community with their dollars.

Smaller events generate even lesser amounts of sales tax. For example, a small (though still quite enticing) event draws 150 patrons who each spend \$250 during their visit to El Dorado. The City sees \$375 in sales tax after the host pays all the bills and remits sales tax to the Kansas Department of Revenue. As you can imagine, direct and indirect expenses of the City to support such an event likely exceeds the sales tax generated from the event. In other words, taxpayers subsidize events with little discussion or debate.

The only exception to this narrative is when HollyFrontier (now HF Sinclair) refinery schedules a turnaround and brings upwards of 1,000 people to town for an extended stay. This semi-sustained influx of people creates a flurry of retail activity observable in the City's sales tax trends. HF Sinclair conducted back-to-back turnarounds in 2018 and 2019 that set new sales tax records. We are truly grateful for their continued investment in the refinery and our community.

The pandemic hit in 2020 causing many people to "hide up" at home. This black swan event created another "bumper crop" year for sales tax as people discovered renewed opportunities to shop local to escape businesses closures, mask mandates, and other pandemic-related factors occurring throughout the region. Even as I write this letter, El Dorado is projecting its fourth consecutive record-breaking sales tax year not because of special events (since special events were largely hibernating during the year) but because of residents electing to shop locally instead of shopping in a neighboring community.

Special events can generate significant sales tax dollars to offset public investment in a community. The secret to growing sales tax from events is to have many events (practice makes perfect) where the producer pays the direct and indirect expenses for hosting the event and using public services. Failure to do so means the community at-large subsidizes the event. Subsidization is not bad in and of itself; it just means the community has decided to subsidize the event to enhance the quality of life for residents. Special events, as in life, are not economic situations where you can have your cake and eat it too.

Another interesting element of the City's one-cent sales tax relates to how the local sales tax is structured by ordinance. By state law, voters of cities in Kansas may authorize a special sales tax on retail sales of up to 2% for a period of ten years. The proceeds from the special sales tax must be spent on the specific purpose (or purposes) authorized by the adopted ordinance.

As previously mentioned, El Dorado's formula allocates sales tax proceeds as follows: \$1.65 million to property tax reduction, \$600,000 to street maintenance, and \$100,000 to economic development, with the remaining balance going to the Excess Sales Tax Program. The structure of the sales tax demonstrates thoughtfulness and insight - the founding authors of the sales tax wanted to ensure that El Dorado had the resources to keep property taxes low, maintain streets, invest in the growth of the local economy, and invest in projects to make El Dorado special.

Inflation, however, plays the evil villain in the story destroying the value allocated to these intended purposes with the mere passing of time. The purchasing power required today to make the same dent in each of these areas makes the mind pause. According to the U.S. Bureau of Labor Statistics, the City requires \$4.9 million today just to purchase the same amount of goods and services as \$2.35 million purchased from sales taxes in 1990.

Inflation has eroded the value of the sales tax proceeds much as a fast moving river erodes the bank and carries the sedimentation downstream. In just a few years, the riverbank has moved substantially, and the purchasing power of the dollars provided by taxpayers no longer provides the same services as years ago.

To be sure, I am not advocating for an increased sales tax rate. It is important for taxpayers to know that the funds generated by the one-cent sales tax are insufficient for keeping up with the silent force of inflation as the cost of public services increases over time. The City must look to other revenue sources to offset this rather significant deterioration of purchasing power, and few options exist to ensure that public services continue at a quality deemed acceptable to the public footing the bill.

Per state law, the City adopts its budget in August or September in the year preceding the fiscal year. The City Commission discusses priorities for the upcoming year and decides to allocate public resources to make progress on these priorities as well as continue to provide public services at a quality expected by the public. It is a difficult task, to be sure, but one that the City Commission is capable of resolving.

Following a public hearing, the City Commission adopts its budget that will become effective on January 1st of the following year. The City's budget serves several functions. Understanding these functions allows an individual to understand the financial statements. First, the budget serves as a planning document as the City anticipates its revenues and expenditures for the upcoming year. Like a business or non-profit organization, the City must have a general sense of how money will flow into the organization and how it will exit.

Second, the budget communicates the priorities of the City and allocates public resources in a way that allows progress toward these priorities. It also enables the governing body and the public to understand how public resources, such as taxes, facilitate public services. By default, the City Commission sets policy by allocating resources to various public projects and services. As the saying goes in government, "what gets funded, gets accomplished." Municipal departments would not operate without sufficient resources. Luckily, we can only imagine a scenario where there is not a police or fire department to call upon when an emergency happens in our neighborhood.

Finally, the budget sets the spending authority for the City. Statutorily, the City cannot spend more than what is approved in the budget. The City can amend its budget to spend more than the originally approved expenditures, but not until following a legally defined process to do so. Taxpayers can refer to the budget document to determine if the City plans to spend more than the prior year, and to understand how much more the City plans to spend. Expenditures have a direct impact on the amount of taxes levied, so taxpayers may also use the budget to determine if taxes were raised to pay for increasing municipal expenditures.

The chart below shows the adopted budget for 2021 as well as the actual revenues and expenditures for select funds. This simplified version of the City’s financial statements will provide you with a snapshot of how the City performed financially.

	2021 Budget		2021 Actual	
	Revenues	Expenditures	Revenues	Expenditures
General	\$10,373,662	\$12,094,261	\$9,585,578	\$8,146,322
Airport	\$269,860	\$309,901	\$303,495	\$269,368
Stormwater	\$310,425	\$654,302	\$325,853	\$314,857
Water	\$4,468,600	\$4,468,000	\$4,777,405	\$3,355,715
Sewer	\$2,824,865	\$2,988,807	\$2,889,695	\$1,882,978
Refuse	\$1,562,844	\$1,871,614	\$1,635,106	\$1,606,298
Tourism	\$200,000	\$369,621	\$234,377	\$201,986

Another chart I will share provide readers with an overview of the fund balances in each of the aforementioned funds. Fund balances, proverbially known as reserves, serve as self-insurance that allows the City to meet unexpected situations without requiring a disruption in essential public services.

	Fund Balances		
	Minimum Requirement	As of Dec 31, 2021	As of Dec 31, 2020
General	\$1,360,513	\$2,315,813	\$2,981,014
Airport	\$25,218	\$184,059	\$122,246
Stormwater	\$22,568	\$374,457	\$431,660
Water	\$602,137	\$2,514,380	\$1,812,488
Sewer	\$369,504	\$1,273,140	\$1,133,675
Refuse	\$239,432	\$841,855	\$697,989
Tourism	\$27,932	\$344,486	\$281,734

As you can see, all funds increased their fund balance at year-end and all funds exceed their respective minimum fund balance, as established by local policy. The primary explanation for the increased reserve funds stems from significantly reducing expenditures amid the uncertainty of the pandemic. The City adapted anticipating a worst-case scenario that fortunately did not come to fruition.

The now-strengthened fund balances will provide more ammunition for the City to respond to various unplanned circumstances, such as a pandemic, that require resources and creativity to resolve. We do not know if another outbreak will occur as happened during the 1918 Spanish Flu. As I write this letter, COVID and other circumstances may be influencing inflation throughout the broad economy. Economists do not know if the decreased purchasing power will be temporary or if it will change pricing levels over a sustained period. The City will approach the next few months conservatively before deciding to allocate a portion of the funds to one-time expenses such as equipment replacement or capital projects.

Nevertheless, the City will continue to manage its budget prudently to give taxpayers confidence municipal services will be provided no matter what happens. Failure in local government is not an option.

MAJOR FACTORS AFFECTING THE FINANCIAL STATEMENTS

American Rescue Plan Act. To facilitate the recovery process needed because of the pandemic, the U.S. Congress authorized the American Rescue Plan as a means of providing direct aid to states and local governments. The \$350 billion federal appropriation provides emergency funding to support the public health response and lay a foundation for a strong and equitable economic recovery. The City of El Dorado anticipates receiving \$1.9 million from the American Rescue Plan, half of which will be distributed in the second quarter of 2021 and half that will be distributed in 2022. The City plans to use these funds for public infrastructure investments necessary to keep aging, critical systems functioning.

Vacant Positions. Throughout the year, the City will have any number of vacant positions that arise when people elect to retire or accept another job opportunity with another organization. Open positions play a significant role in the City's financial statements because much of the City's expense is directly attributed to salaries and benefits of personnel hired to perform the work of the City.

Public services provided by the City are labor intensive – automation has not had the impact on the municipal workforce as it has on the private workforce. Long will come the day, for example, when a “robocop” actually enforces municipal laws. We should consider this a fortunate benefit. Even so, many jobs in the municipal workforce cannot convert to an automated solution easily. Nor would we prefer this scenario. People serving people is a noble career choice, and one that allows the City to meet the expectations of the community with commitment and pride. You will not get the same treatment from a robot as you will an employee who is also a neighbor anytime soon.

The number of employees on the payroll heavily influences municipal expenses. At this time, the City has twelve vacant positions in various departments of the City. Vacant positions, especially if open for lengthy periods, allow for potentially significant savings to the bottom line. The average vacant position “saves” the City about \$26 per hour. The cost savings for such positions may also amount to a service reduction, as fewer people cannot do the same amount of work as a fully staffed organization. In other words, the City cannot save a lot of money with fewer workers because services will not meet the expectations of the community. This is especially true over longer periods.

Workforce Pressures. The vacant positions experienced recently result from a variety of factors, although perhaps most pressing is the tight labor market. Employers throughout the nation struggle to find qualified applicants and hire them at pay rates deemed acceptable only a year or so ago. Now, organizations must look at salaries to entice potential candidates to join their workforce.

For example, the City had a challenge recruiting sanitation workers for the precarious job of handling the community's trash every weekday. The City increased starting pay for sanitation workers to entice more people to apply for these difficult jobs. Management increased starting pay for sanitation positions 20% at a cost to refuse customers of about \$60,000, and the Public Works Department started finding people willing to accept this “trashy” job.

A “trickle up” situation occurs anytime the City increases the starting pay for a position. The City must also increase wages for veteran employees who have served the community longer than the new recruits. Adjusting the starting wage creates compression within the pay range. Veteran employees who have earned their way do not appreciate being at the same rate of pay as someone who just started, and nor

should they. An organization that values its employees should adjust everyone to prevent compression. This helps keep morale high and avoids the need for a significant increase adjustment in the future. Better to make incremental adjustments rather than a large adjustment that may be difficult to absorb.

The City increased pay for various “difficult-to-fill” positions to aggressively pursue employee prospects for critical services to the community. I am hopeful that these adjustments make the City more competitive. Unfortunately, the adjustments will not resolve the workforce challenges. They will allow the City to hold its own until the labor market adjusts to calmer waters.

El Dorado Lake Recreation Master Plan. In 2020, the City Commission voted to facilitate a recreation master plan for El Dorado Lake. The lake, which is owned by the U.S. Army Corps of Engineers and leased by the Kansas Department of Wildlife, Parks, and Tourism, presents an opportunity for significant recreation tourism in proximity to El Dorado. The City negotiated an agreement with Professional Engineering Consultants to work on the plan at a cost of \$37,000. The City intends to pay for the master plan from the Tourism Fund given the potential of creating a plan that could generate considerable tourism traffic to the community.

G.O. Bonds, Series 2021. The City issued \$6.34 million of its General Obligation (G.O.) bonds in November 2021 to finance various public infrastructure projects. The low interest rate environment will require the City to repay this principle amount back at 1.45% over twenty years. A blessing to taxpayers and a scourge to bondholders. Projects included in the issuance include:

- Douglas Road Improvements
- Marmaton Road Improvements
- Oil Hill Road and Rocky Road Improvements
- Union Tank Water Main Improvements
- Fire Apparatus Acquisition

The City also refinanced \$3.3 million of G.O. Bonds, Series 2011 to capitalize on lower interest rates. The low interest rate environment will likely end at some point. Local governments that took advantage of lower borrowing costs will reap the benefits for years to come.

Termination of Holiday Inn Express CID. On June 15, 2017, the City created a Community Improvement District (CID) to assist with the financing of various improvements at the Holiday Inn Express in El Dorado. A Community Improvement District allows the hotel to charge a higher sales tax rate to reimburse the owner of certain improvements made to the hotel. Subsequently, the property owner sold the hotel to another party.

On September 17, 2018, the City of El Dorado approved an agreement establishing a Community Improvement District (CID) for the Holiday Inn Express owned by the new owner. Per the agreement, the hotel collects and remits to the City an additional two percent sales tax on overnight visits. These funds may reimburse the developer or property owner for eligible improvements as defined by state statute. The City cannot use the funds for any other purpose. In order to receive reimbursement for eligible expenses, the City requires the owner or operator of the property to submit receipts demonstrating eligible expenses for the construction, renovation, repair and equipping of the Holiday Inn Express.

The new owner did not submit any reimbursement receipts, even as the CID Fund continued to accrue new Community Improvement Funds as patrons paid the higher sales tax rate. The City requested receipts to reimburse the property owner for eligible expenses, although did not receive any information as to the status of the improvements. At its April 5, 2021 regular meeting, the City Commission decided to

terminate the CID. The Holiday Inn Express' CID Fund had a balance of \$33,377 at the time of termination. The City plans to use these funds for the promotion of the community.

Transient Guest Tax Receipts. I mentioned at the beginning of this letter that I would refrain from mentioning the pandemic. I will suspend this pledge to discuss transient guest tax receipts. Visitors staying overnight in hotels pay a transient guest tax of 5%, which amounted to \$102,438 in 2020. These receipts fell quite substantially due to COVID-19. The City started to see the light at the end of this prolonged tunnel this year, evidenced by stronger transient guest taxes of \$194,905. The City anticipates this figure increasing even higher as things return more to a state of normalcy. We also anticipate higher transient guest tax receipts in 2022 as the City Commission increased the rate from 5% to 8% to generate more funds to promote the community and conduct events to attract more visitors to El Dorado.

Grant Funding. The City received federal appropriations of \$443,548 from the Federal Aviation Administration (FAA) to fund an airport lighting project needed to upgrade the lighting system at Captain Jack Thomas Municipal Airport.

The City also received \$23,783 in federal funding for various law enforcement related activities. The U.S. Department of Justice's Bulletproof Vest Partnership Program contributed \$1,141 to the El Dorado Police Department to purchase bulletproof vests.

The Police Department also received a \$22,642 federal grant from the Edward Byrne Memorial Justice Assistance Grant Program. The grant allowed the entire department to receive training for crisis intervention, which enables police officers to respond to mental health and crises that are unfortunately all too common in law enforcement.

Finally, the City received several "pass-through" grants whereby the City receives funding for a third party. The City received \$15,879 from the U.S. Department of Housing and Urban Development for an Emergency Solutions Grant Program and \$337,450 from the U.S. Department of Housing and Urban Development for a commercial Community Development Block Grant project.

Federal grant awards to the City totaled \$1.48 million, or \$114 per resident of El Dorado. We try to find and apply for federal funding opportunities to supplement existing services. This year, we were quite successful in returning federal dollars to taxpayers.

Public Pensions. Every year in this letter, I report on the status of the City's public pension liability. The City of El Dorado participates in Kansas Public Employees Retirement System (KPERS) and the Kansas Police and Fire (KP&F) program for its post-employment retirement benefits. Employees of the City are required to participate in KPERS or KP&F, and the City is required to contribute to these programs on each respective employee's behalf. State law requires the City to publish in its financial statements the current and future liability associated with the unfunded portion of KPERS and KP&F directly attributed to the City.

As of December 31, 2021, the City's pension liability totaled \$6.88 million compared to \$8.95 million a year ago. Per state statute, the City distributes its pension liability as follows: KPERS at \$2.7 million, Kansas Police & Fire (KP&F) at \$3.9 million, and the Library's participation in KPERS at \$183,944.

The City is required to provide certain language in its transmittal letter, included with its Comprehensive Annual Financial Report (“CAFR”) that explains the policies and controls designed to ensure the City’s stewardship of public assets. I will briefly discuss these items in this next section of the letter.

The City prepares the Comprehensive Annual Financial Report for the year ended December 31, 2021, for the review of the governing body, citizens, and others interested in its financial condition. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City. Staff believes the data as presented is accurate in all material respects and that it is presented in a manner designed to fairly represent the financial position and results of operations of the City measured by the financial activity of its various funds. Disclosures necessary to enable the reader to gain the maximum understanding of the City’s financial activity have been included.

The management of the City is responsible for establishing and maintaining an internal control structure designed to ensure the protection of the City’s assets from loss, theft or misuse, and to warrant that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The design of the internal control structure provides reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the valuation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. Management believes that the City’s internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Generally accepted accounting principles (also known as GAAP) require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (“MD&A”). This Letter of Transmittal is designed to complement the MD&A section, and should be read in conjunction with it. The MD&A section of the report may be found immediately following the report of the independent auditors.

INDEPENDENT AUDIT OF FINANCIAL STATEMENTS

State statutes require an annual independent audit of the City’s financial records and transactions. This year, Adams Brown Strategic Allies and CPAs conducted the audit of the City’s financial statements. Their full, unqualified opinion has been included with the financial statements for the public’s review. You may elect to read the opinion, although its states that the City’s financial statements provide a fair representation of the City’s financial position for year-ending December 31, 2021. City staff will continue to care for public resources and assets at a standard that exceeds minimally accepted practices.

Last year’s independent audit received an unqualified opinion from Adams Brown, LLC, which means that, in the opinion of the auditors, the City’s financial statements presented fairly, in all material respects, the respective financial position of the City’s financial position. The audit, however, identified several issues that resulted in significant findings.

I wish to address the prior year’s findings to ensure the governing body and the public that the City takes such matters seriously, and has devised and implemented practices to resolve these findings. The City acts as a steward of public resources, namely hard earned tax dollars, and so the City owes a standard of care to taxpayers that properly accounts for such resources and the appropriate public use thereof.

The independent auditors made several recommendations to improve operational or administrative efficiencies and to improve internal control.

Significant Deficiency: Encumbrances should be tracked and recorded to ensure that claims against cash are accurately represented.

Action Taken: The Finance Director implemented a new process that uses a spreadsheet based on the minutes from City Commission meetings to track and monitor authorized expenses. The Finance Director will track these expenses through the year to ensure that the purchase is completed (i.e., items delivered and invoices paid). Any invoices that have not been paid at year-end because an item has not yet been delivered will be encumbered during the year-end process.

Significant Deficiency: The City's internal controls should identify misstatements in the financial statements.

Action Taken: The Finance Director will review the trial balance at year-end to ensure the completion of necessary adjustments.

Significant Deficiency: During the audit, the auditors discovered eight invoices that did not receive proper approvals per the Purchasing Policy of the City.

Action Taken: The Finance Director implemented a process that requires all necessary approvals prior to the processing of any accounts payable packet. The Finance Department will remove from the accounts payable packet any invoice without proper approval and return it to the applicable department for approval. Administrative assistants will ensure that invoices receive approval prior to submitting for payment.

Significant Deficiency: The City did not complete and submit reports for a federally funded airport project within the timeframe required by the Federal Aviation Administration (FAA).

Action Taken: Individuals associated with the administration of airport grants will put reminders in their calendars to review the compliance requirements for the project. The grant administrator will submit reports to the FAA by the deadline following completion and closeout of the project.

As previously mentioned, the City takes seriously any deficiency discovered during the independent audit. The Finance Department implemented all of the actions described above as of my writing of this report. The City looks at the audit process as an opportunity to learn how to strengthen its internal control and processes to ensure that taxpayers and interested stakeholders may have confidence in the municipal government's ability to ethically and prudently manage public resources. We serve as stewards of taxpayer money, and we strive to do everything we can to demonstrate integrity.

RELEVANT FINANCIAL POLICIES

The City of El Dorado's "General Financial and Budgetary Policies," adopted by Resolution No. 2908, have been included with the Comprehensive Annual Financial Report for your information. I recommend interested readers review these policies by referring to the table of contents to determine where the policies are located in this document. These financial policies provide the framework with which the City manages its finances to ensure adequate internal control for the integrity of these financial statements. The City Commission did not make any changes to the financial policies this past year.

ECONOMIC CONDITION AND OUTLOOK

Private Sector Investment:

In 2021, the City experienced private development activity that contributed nearly \$10.3 million in valuation. Six building permits were issued for new commercial development with an aggregate valuation of \$1.8 million, compared to six new commercial developments in 2020 with a valuation of \$9.36 million. Also during the year, the City issued twenty-four building permits for commercial additions, remodels, and repairs with a valuation of \$4.7 million. Comparatively, the City issued thirty-five building permits for similar activity with a valuation of \$3.2 million in 2020.

The City issued thirteen residential building permits for new construction with a valuation of \$2.4 million. The City issued forty-one building permits for new residential construction in 2020 with a valuation of \$4.38 million. Also during the year, 105 building permits were issued for residential additions, remodels, and repairs, with a valuation of \$1.3 million. In 2020, eighty-nine building permits were issued for the same activity with a valuation of \$846,660.

	Residential Construction		Commercial Construction	
	Permits	Valuation	Permits	Valuation
2017	80	\$4.4 million	32	\$34.9 million
2018	114	\$3.1 million	31	\$23.4 million
2019	98	\$2.5 million	39	\$5.4 million
2020	130	\$5.2 million	41	\$12.6 million
2021	118	\$3.7 million	30	\$6.5 million

A new year led to record-tying sales tax receipts. The City brought in \$2.97 million from retail sales, which the current record for annual sales tax receipts set in 2018. The total receipts also include compensation use tax proceeds of \$476,515, which are paid by individuals or businesses purchasing items outside El Dorado but that are delivered to El Dorado.

Next year's sales tax receipts look to continue on a growth trend. The City is on pace in May 2022 to set another sales tax record. Year-to-date, the City has received \$1.28 million compared to \$1.19 million during the same period a year ago. This represents a 7.8% increase over the prior year-to-date collections! Sales tax receipts continue to perform even as the macro economy has much uncertainty. The City projects receiving \$2.975 million in sales taxes based on this strong trend.

Public Sector Investment:

- 9th Avenue Improvement Project.** The City Commission authorized a much-needed, \$1.3 million improvement to 9th Avenue from Gordy Street to N. Taylor Street. The City will pay slightly more than \$1.0 million (80%) of the project since the City owns the majority of property located adjacent to the project. The project is further complicated because it crosses a BNSF railroad, which will require extensive coordination with BNSF. The City-at-large portion of this project will be funded from the Bond and Interest Fund mill levy following completion.
- 5th Avenue, 2nd Avenue, Hunton, Simpson Improvement Projects.** The City annexed the Village Township several decades ago. At that time, the City planned to improve the streets within the newly annexed area. The street improvements did not happen for quite some time, and this project will nearly complete the effort. Combined, the projects total \$2.3 million in public infrastructure investment. The City-at-large, or taxpayers, will pay about \$544,000 (32%) and the

remaining \$1.7 million will be levied as special assessments against properties included in the benefit district. Once completed, the City will include this project in an upcoming bond issuance so the City and property owners will have the ability to pay over twenty years.

- **Industrial Water Tower Painting.** The City plans to paint the interior and exterior of the water tower in its industrial park. This routine maintenance extends the life of the tower and helps protect the water quality of water stored within the tower. The City budgeted \$185,000 to complete this project.
- **Downtown Underground Utility Project.** The City Commission committed a total of \$380,000 from several funds to assist with the undergrounding of electrical infrastructure in the 100 block of north Main Street in downtown business district. Evergy planned a \$1.2 million upgrade to its overhead electric infrastructure serving this block. The City thought it would take advantage of the opportunity to collaborate with Evergy and place the infrastructure underground instead. The City Commission approved a finance plan for the City's share of the project as follows: Economic Development Sales Tax Fund (\$150,000), General Fund (\$80,000), Major Street Fund (\$50,000), Water Fund (\$50,000), and Sewer Fund (\$50,000).

Infrastructure Studies. Following completion of the West Industrial Park Master Plan, the City decided to continue its efforts to plan for industrial development growth by examining its public water and sanitary sewer systems.

- **Water Treatment and Capacity Study.** In 2020, the City Commission authorized a not-to-exceed contract of \$189,980 with consulting firms Black and Veatch and MKEC to study the City's water treatment and system capacity. The primary purpose of the study was to determine improvements needed to facilitate industrial development in the City's industrial growth areas. Secondly, the study will also identified improvements for the public water system that will enhance service to residential and commercial customers.
- **Sanitary Sewer Capacity Study.** In 2020, The City Commission also authorized \$70,793 to study the City's sanitary sewer system to identify capacity issues needing improvement in order for the system to accommodate increasing flow levels associated with development. A key focus of the study will address how the City will provide sanitary sewer service to its growing industrial areas. Garver completed the study and provided the City with a list of potential capital projects to enhance the existing sanitary sewer system.

SUBSEQUENT EVENTS TO THE FINANCIAL STATEMENTS

The City also makes note of the following events that occurred after the closure of the 2021 fiscal year, but before the issuance of the financial statements for the period:

- **American Rescue Plan Act (ARPA) Funds.** The City Commission designated its \$1.9 million in ARPA funds at "revenue replacement" as allowed by guidance provided by the U.S. Department of Treasury. This designation allows the City to allocate these funds to any general governmental purpose, and provides flexibility beyond the five authorized uses for these funds per federal regulations.

The City plans to use its share of APRA funds as a local match for a \$3.0 million “Building a Stronger Economy” (BASE) grant awarded to the City by the Kansas Department of Commerce for public infrastructure. The City plans to invest the funds in an upgrade to the Central Avenue Water Transmission Main and to make improvements to the Constant Creek Sanitary Sewer Interceptor. These projects, and site preparation work, will position the City of El Dorado for industrial development.

- **Capital Project Authorizations.** The City Commission authorized several public infrastructure projects that will commence preliminary engineering in 2021-2 with construction planned for 2022-3. The projects will require financing in the form of General Obligation bonds. The City levies special assessments, as allowed by state law, on properties benefiting from the improvements. The assessments provide revenue to offset the principal and interest expenses for these projects.
- **Creation of Building Reserve Funds.** On June 20, 2022, the City Commission approved the creation of several building reserve funds to allow the City to set aside funds for unanticipated facility repairs that may arise due to aging buildings. The City Commission also transferred \$425,000 to these funds. The dollars transferred came from fund balances that exceeded the maximum fund balance requirement established by local policy.
- **Hazardous Materials Truck Acquisition.** The City, in collaboration with Butler County, acquired a Hazardous Materials Truck to replace an aging unit. The City’s share of cost for the \$227,200 acquisition was \$56,800. The City appreciates Butler County’s support for this important purchase to allow for the continued provision of HazMat services to the taxpayers of Butler County.

RECOGNITION

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of El Dorado, Kansas for its comprehensive annual financial report for the fiscal year ended December 31, 2020. This was the 43rd consecutive year that the City has achieved this prestigious award. Receiving the award is now as consistent as sunrises and the annual great bird migration.

In order to receive a Certificate of Achievement, a municipal government must publish an easily readable and efficiently organized comprehensive annual financial report. The report must satisfy both generally accepted accounting principles and applicable legal requirements. It should also communicate the City’s financial condition in a manner that allows the public to understand such condition and affirm the City’s spending meets prudent standards and public expectations. I hope readers will find this year’s statements as enthralling as they are informative.

The Certificate of Achievement is valid for one year following its issuance. The City believes that the comprehensive annual financial report for year-ending December 31, 2021 will continue to meet the Certificate of Achievement Program’s requirements and will submit it to the GFOA for consideration for another certificate.

The information contained in these financial statements attempt to provide a snapshot into the activities of the municipal government. The data helps elected officials, management, and the public understand the financial condition of the City. The contents of the financial statements tell the financial story of the City, although the real work of the municipal government cannot be done with numbers but rather with dedicated people working every day in service to their community. I cannot thank these dedicated individuals enough for the hard work they do to make El Dorado a great place to live, work, and play.

I could not be prouder of the people who serve the El Dorado community with “City of El Dorado” embroidered on their shirts. The City’s services may have changed during COVID, but our effort and attitude never wavered. I said it before and I will reiterate it again: every community in the nation should be so blessed to have such a qualified and committed staff working to make the community a great place. The citizens of El Dorado should feel a sense of pride knowing the municipal staff works tirelessly to that end. I feel blessed to call them colleagues and friends.

Respectfully Submitted,

INDEPENDENT AUDITOR'S REPORT

To the Mayor and City Commissioners
City of El Dorado, Kansas
El Dorado, Kansas

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the **City of El Dorado, Kansas**, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **City of El Dorado, Kansas** as of December 31, 2021, and the changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), the *Kansas Municipal Audit and Accounting Guide*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise **City of El Dorado, Kansas'** basic financial statements. The statements and schedules under the

supplementary information section in the accompanying table of contents and other information including the introductory and statistical sections, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements. Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the procedures performed as described above, the information as noted above is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated **July 18, 2022**, on our consideration of the **City of El Dorado, Kansas**' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT’S DISCUSSION AND ANALYSIS

This section of the report contains an overview and analysis of the City of El Dorado’s financial statements and activities for the fiscal year ended December 31, 2021. The information contained here, as well as the information contained in the letter of transmittal, are intended to provide the reader of the financial statements with an overall picture of the City’s financial condition.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements of the City include the government-wide financial statements and the fund financial statements. The notes to the financial statements follow the basic financial statements and are essential for the reader’s understanding. Other supplementary information is also included at the end of this report to provide additional information for the reader.

Users of the report have an opportunity to compare the net position of the City of El Dorado to other entities using the government-wide financial statements. Those users can address relevant issues and broaden the basis of comparison (year-to-year or government-to-government) to enhance the City’s accountability.

Government-Wide Financial Statements

Government-wide financial statements present the results of the City’s operations using the accrual basis of accounting, the method used by private sector businesses. These statements focus on the long-term financial picture of the City as a whole.

The Statement of Net Position reports all the City’s assets, deferred outflows, liabilities, and deferred inflows. Net Position, the difference between assets, deferred outflows, liabilities, and deferred inflows are an important measure of the City’s overall financial health. Over time, the increases and decreases in net position can be monitored to determine whether the City’s financial position is improving or deteriorating.

The Statement of Activities presents information showing how the government’s net position changed during the most recent fiscal year. All changes in net position (current year’s revenues and expenses) are considered regardless of when cash is received or paid. Thus, revenues and expenses are reported in the Statement of Activities for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and accrued vacation leave).

The City of El Dorado’s Statement of Net Position and Statement of Activities summarize all the Primary Government funds into either governmental activities or business-type activities. Governmental activities include the operations of the City that are generally supported by taxes, such as police, fire, public works, parks, cultural activities, general administration, recreation, cemetery, and industrial development. Business-type activities include water, sewer, refuse, and compressed natural gas utilities, which are self-supporting funds.

The Bradford Memorial Library and El Dorado Senior Center component units are also reflected in these statements. Additional information on the component units may be found in the notes to the financial statements and the financial statements included in the supplementary information.

Fund Financial Statements

A fund is a fiscal entity with a set of self-balancing accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of El Dorado, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The fund financial statements provide more information about the City's most significant funds – not the City as a whole. All of the funds of the City of El Dorado can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. The City implemented Governmental Accounting Standards Board (GASB) statement number 54 for fiscal year ending December 31, 2012. GASB 54 changes the way fund balances are presented in the governmental fund financial statements.

Governmental fund financial statements are prepared on the modified accrual basis. Under the modified accrual basis, revenues are recognized when they become measurable and available, and expenditures are recognized when the related fund liability is incurred, with the exception of long-term debt and other similar items which are recorded when due. The focus, therefore, is on the short-term financial picture of the operations reported, rather than the City as a whole. Most of the City's basic operations are reported in the governmental fund financial statements. The information reported in these statements can be compared to the governmental activities information in the government-wide statements. The reconciliation at the end of the fund financial statements details the relationship between the two types of financial statements.

Proprietary funds fall into two categories: enterprise funds and internal service funds. All proprietary funds are prepared on the accrual basis of accounting. Enterprise funds are used to account for business-type activities. Enterprise fund statements present the same information that is in the government-wide statements for business activities, only in greater detail. The City's water, sewer, refuse, and compressed natural gas services are accounted for as enterprise funds. Internal service funds are used to account for the cost of operations shared by various functions of the City. The City uses one internal service fund to account for its data processing activities. In the government-wide statements, the information for the internal service fund is predominantly presented as part of the business-type activities information.

Fiduciary funds are used by the City to account for resources held by the City for the benefit of a third party. Because the resources of these funds are not available for the City's operation, they are not presented in the government-wide financial statements. The City's fiduciary fund is the Retiree Health Care Benefit Plan (Trust Fund) used to accumulate the resources for postemployment health care benefits to qualified employees.

FINANCIAL ANALYSIS OF THE CITY

Net Position

In accordance with GASB Statement No. 34, following are the combined net position of the City of El Dorado as of December 31:

City of El Dorado, Kansas
 Net Position
 As of December 31, 2021
 (with comparative totals for December 31, 2020)

	Governmental		Business-Type		Total Primary	
	Activities		Activities		Government	
	2021	2020	2021	2020	2021	2020
Current and other assets	\$ 24,483,587	\$ 18,638,590	\$ 6,544,969	\$ 5,415,870	\$ 31,028,556	\$ 24,054,460
Capital assets	43,276,739	44,444,720	54,228,727	54,532,043	97,505,466	98,976,763
Total assets	67,760,326	63,083,310	60,773,696	59,947,913	128,534,022	123,031,223
Deferred outflows of resources:						
Deferred outflows - pension	1,842,939	1,825,629	358,454	355,205	2,201,393	2,180,834
Deferred outflows - OPEB	238,755	260,712	84,451	88,919	323,206	349,631

Other liabilities	1,427,782	1,212,743	963,121	331,082	2,390,903	1,543,825
Total liabilities	22,599,775	20,925,056	60,387,350	59,935,002	82,987,125	80,860,058
Deferred inflows of resources:						
Deferred inflows - pension	1,837,068	268,722	412,542	118,137	2,249,610	386,859
Deferred inflows - OPEB	83,908	61,660	21,094	16,883	105,002	78,543
Deferred receivable - Property taxes	5,105,977	4,762,212	-	-	5,105,977	4,762,212
	7,026,953	5,092,594	433,636	135,020	7,460,589	5,227,614
Net position:						
Net investment in capital assets	29,395,449	32,680,162	29,231,102	28,545,051	58,626,551	61,225,213
Restricted	8,520,550	8,020,862	-	-	8,520,550	8,020,862
Unrestricted	2,299,293	(1,549,023)	(28,835,487)	(28,223,036)	(26,536,194)	(29,772,059)
Total net position	\$ 40,215,292	\$ 39,152,001	\$ 395,615	\$ 322,015	\$ 40,610,907	\$ 39,474,016

The City's overall financial position has seen financial growth, with an increase in net position of \$1,136,891. The amount is the combination of an increase in both governmental activities and business-type activities. The governmental activities increased by \$1,063,291 in large part due to the airport runway lighting project and paving Douglas Road.

The net position of business-type activities increased by \$76,600 due to the net effect of several items. New water meters and the acquisition of a 2021 Freightliner increased capital assets.

Governmental Activities

The table below shows the condensed revenues, expenses, and change in net position for 2021 and 2020.

	<u>Governmental Activities</u>	
	<u>2021</u>	<u>2020</u>
Revenues:		
Program Revenues:		
Charges for Services	\$ 3,849,974	\$ 4,008,189

Net Position December 31	<u>\$ 40,215,292</u>	<u>\$ 39,152,001</u>

Several revenue sources that increased in 2021 include: Property Tax, Sales Tax, Franchise Tax, and Tourism Tax. Property Tax increased due to a higher mill levy approved by the City Commission to fund additional staff in Parks & Recreation. Sales Tax in 2021 once again reached a record high. Tourism Taxes continue to increase as COVID-19 travel restrictions decrease.

Decreases in revenue were seen in Charges for Services, Operating Grants and Contributions, Capital Grants and Contributions, Investment Earnings, and Gain on the Sale of Capital Assets. Decreases in charges for services is due to the leasing of the Prairie Trails Golf Course. Operating Grants and Contributions and Capital Grants and Contributions are variable as they rely on outside agencies to approve funding to the City. Investment earnings decreased because the return on investments reached

record lows and the City was working to revamp its investment strategy, however these amounts are expected to begin recovering in 2022.

The net change in expenses increased by \$411,527. General Government expenses increased due to annual increases in personnel expenditures. Public Safety decreased slightly due to vacancies throughout the year. Health and sanitation increased in 2021 because we eliminated employee salary splits between funds. The Public Works Director and Administrative Assistant were moved fully into Sanitation. There was also a 20 percent increase applied to salaries in sanitation in late 2021 to prevent the loss of employees in the extremely volatile job market. Economic Development expenses decreased because in 2020 the Economic Development Fund was utilized to provide grants to local businesses who were struggling due to the pandemic. This did not occur in 2021.

Business-Type Activities

The table below shows the condensed revenues, expenses and changes in net position for 2021 and 2020.

	<u>Business-Type Activities</u>	
	<u>2021</u>	<u>2020</u>
Revenues:		
Program Revenues:		
Charges for Services	\$ 9,326,972	\$ 9,009,146
Operating Grants and Contributions	-	11,360
Capital Grants and Contributions	-	68
General Revenues:		
Investment Earnings (Loss)	1,807	16,968
Gain on sale of capital assets	1,315	-
Total Revenues	<u>9,330,094</u>	<u>9,037,542</u>
Expenses:		
Waterworks System	5,125,658	4,622,699
Sewer System	1,998,553	2,069,293
Refuse	1,599,436	1,472,413
Compressed Natural Gas	41,675	32,330
Total Expenses	<u>8,765,322</u>	<u>8,196,735</u>
Excess Before Transfers	564,772	840,807
Transfers In (Out)	(491,172)	(602,872)
Changes in Net Position	<u>73,600</u>	<u>237,935</u>
Net Position January 1	322,015	(241,217)
Prior Period Adjustments	-	325,297
Net Position, Beginning of the Year as Restated	<u>322,015</u>	<u>84,080</u>
Net Position December 31	<u>\$ 395,615</u>	<u>\$ 322,015</u>

The Waterworks System, Sewer System, Refuse, and Compressed Natural Gas (CNG) utilities are the Business-Type Activities of the City of El Dorado. The utility bill includes Water Fund, Sewer Fund, and Refuse Fund. Revenues for these funds increased between 2020 and 2021. This is likely due to the re-opening of many businesses and the local schools during 2021 after COVID-19 restrictions were removed.

Expenses increased slightly also due to increased activity after COVID-19 restrictions were removed.

FUND ANALYSIS

There was a net change in fund balance of \$3,784,519 in the City’s Total Governmental Funds resulting from 2021 operations. In the General Fund, Property Tax increased by \$426,481 over 2020. Sales Tax collections increased in 2021 and set another record for collections. Expenses increased by \$1,659,694 in the General Fund largely due to an employee bonus approved by the commission and the transfer of funds for the Downtown Underground Project.

The net change in the Debt Service fund is \$53,092. Property Tax increased by \$38,839. The City chose to transfer \$200,000 from the General Fund to Debt Service in order to cover an anticipated deficit.

The net change in the Construction fund is \$4,218,911. The City worked to properly finance projects in this fund throughout 2021. The issuance of G.O. Bond proceeds, increased transfers from other funds, and the use of intergovernmental revenues supported this fund.

The change in net position in the Business-Type Activities increased \$39,187. This increase was caused by increases in the Charges for Services revenue and the decrease of operating expenses.

GENERAL FUND BUDGETARY HIGHLIGHTS

An amendment to the general fund budget did not occur in 2021. The actual amount of revenues over expenditures was \$1,439,256. Actual revenues came in just 3.9% less than the budgeted amount.

Expenditures were less than budgeted by \$1,521,816. The Police Department held three to five vacant positions at several points during the year. A large portion of the positive variance is due to the contingency reserve that is budgeted in the General Fund to finance unforeseen expenditures or an unanticipated decline in revenues.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The City of El Dorado’s investment in capital assets for its Governmental and Business-Type activities as of December 31, 2021 was \$97,505,466 net of depreciation. The following chart is a breakdown of the City’s Capital Assets, Net of Depreciation.

	City of El Dorado's Capital Assets					
	2021			2020		
	Governmental Activities	Business- Type Activities	Total	Governmental Activities	Business-Type Activities	Total
Land	\$ 4,908,909	\$ 740,378	\$ 5,649,287	\$ 4,832,177	\$ 740,378	\$ 5,572,555
Buildings and Improvements	15,452,917	21,971,022	37,423,939	15,122,839	22,575,438	37,698,277

Major capital asset additions and construction in progress occurring during 2021 included the following:

New Additions

Freightliners	\$ 560,674.32
Submersible Mixers	40,126
Submersible Site Pump	7,112
Air Compressor	11,016
Pre Chlorine Analyzer	7,112
Riding Mower	8,416
Mag Meters	90,121
Vaporooting Commander Unit	18,428
Flint Creek Estates Waterlines	123,589
Air Handler and AC Unit - Library	19,729
Land Acquisition	3,741
Airport Runway	350,348
Airport Lighting	715,523
Police Vehicles	138,581
Fire Vehicle	28,948
Wildland Fire Monitor	6,327
Video Detection System Central	45,104
Resurfacing Southwest Trafficway	529,563
Paving City Streets	1,968,889
1800 Gallon Anti Ice Tank	16,393
Cemetery Vehicle	10,753
Mowers	31,405
John Deere Gator	11,458
Recreation Vehicle	46,530
Tennis Court Project	733,550

Construction in Progress

Paving 9th Avenue (Gordy to Taylor)	2,489
Paving Hunton Road and Simpson Road	35,711
Paving 5th Avenue and 2nd Avenue	14,073
Myers East Addition Paving	18,079
Myers East Addition Sewer	15,878
Paving Deer Run	21,982
Sanitary Sewer Deer Run	12,410
Resurfacing Central and S Main	18,975

Total \$ 5,663,031.81

Additional information about the City's capital assets can be found in Note 4 of the Notes to the Financial Statements.

Debt Administration

The City issued \$6,340,000 of new General Obligation Debt in 2021 for paving Douglas Road, paving Marmaton Road, paving Oil Hill Road & Rocky Road, Fire line for Union Tank, a Fire Truck Acquisition, and refunding of the Series 2011 bonds.

Additional information about the City's long-term debt can be found in Note 6 of the Notes to the Financial Statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The City Commission and City staff are very cognizant of the impact the nation's economy has on the citizens of El Dorado and are working very diligently to keep the expenditures at a low level. The City will maintain the same level of services and fund the same outside agencies in 2022. Sales tax will continue to be a significant revenue source for the City. The property tax would be approximately 17 mills higher to fund the City's operations without the local sales tax. The City continues to improve its infrastructure through the street maintenance program, funded by sales tax monies.

OTHER POTENTIALLY SIGNIFICANT MATTERS

The following significant facts were known by management as of the date of the independent auditor's report:

- The City received \$988,449.48 of American Rescue Plan Act funding in 2021 to assist with COVID-19 related expenses. The second tranche is scheduled to be received in 2022 in the amount of \$988,449.48. The ARPA funds will be designated as revenue replacement and used in 2022. The funds will be used to make up for lost revenue in the Tourism Fund, to purchase Public Safety Radios, and as local match for the BASE grant projects.
- City Staff worked diligently to correct the funding of projects in the Construction Fund. While this fund saw significant improvement in 2021, it requires ongoing effort to continue working towards stable and consistent funding sources. This includes the City creating a debt management plan, performing regular checks of the projects in the fund, utilizing temporary financing, and more regulatory enforcement of the City's financial policies.
- In 2021, the City began working towards an improved model for financing capital projects as discussed above. With that, the City anticipates completing forecasts for major funds, a debt management plan, a new Capital Improvement Plan process, and more balanced budget in 2022.

REQUESTS FOR INFORMATION

The financial report gives the reader a general overview of the City's finances. Questions about information contained in this report or requests for additional information should be directed to the Director of Finance, City of El Dorado, 220 East First, El Dorado, KS, 67042.

CITY OF EL DORADO, KANSAS
Reconciliation of the Total Governmental Fund Balances to
Net Position in the Governmental Activities
December 31, 2021

Total Governmental Fund Balances	\$	8,109,170
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.		43,276,739
Other long-term assets are not available to pay for current-period expenditures and, therefore, reported as unavailable revenue in the funds.		5,901,193
Other assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.		3,000,000
Deferred outflows represent a consumption of net position that applies to a future period and so will not be recognized as an expenditure of resources until then.		
Deferred outflows - pension	1,842,939	
Deferred outflows - OPEB	<u>238,755</u>	2,081,694
Internal service funds are used by management to charge the costs of information technology to individual funds. This adjustment reflects the consolidation of internal service fund activities related to governmental activities.		34,635
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.		
Bonds payable	(12,465,582)	
Premiums on bond sold	(910,610)	
Capital leases payable	(505,098)	
Accrued interest payable	(29,309)	
Compensated absences	(345,744)	
Net pension liability	(5,482,914)	
Net OPEB liability	<u>(527,906)</u>	(20,267,163)
Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as revenue until then.		
Deferred inflows - pension	(1,837,068)	
Deferred inflows - OPEB	<u>(83,908)</u>	(1,920,976)
Net Position of Governmental Activities	\$	<u><u>40,215,292</u></u>

CITY OF EL DORADO, KANSAS

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in
Fund Balances to the Governmental Activities in the Statement of Activities
For the Year Ended December 31, 2021

Total Net Change in Fund Balances - Governmental Funds	\$	3,784,519
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital outlay	1,907,720	
Depreciation expense	<u>(2,815,255)</u>	(907,535)
The net effect of various miscellaneous transactions involving capital assets is to decrease net position.		(260,446)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		693,801
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of differences in the treatment of long-term debt and related items.		
Principal (advances) payments		
Bond proceeds	(6,340,000)	
Bond premium	(781,279)	
Capital leases	117,591	
General obligation bonds	<u>4,856,124</u>	(2,147,564)
Internal service funds are used by management to charge the cost of information technology to individual funds. The net revenue (expense) of certain activities of the internal service fund is reported with governmental activities.		17,225
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Compensated absences	(4,013)	
Pension contributions	129,978	
OPEB contributions	(130,013)	
Amortization of bond premium	30,832	
Accrued interest	<u>23,152</u>	49,936
Change in Net Position of Governmental Activities	\$	<u>1,229,936</u>

The notes to the financial statements are an integral part of this statement.

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

City of El Dorado, Kansas (the City) is a municipal corporation governed under a Mayor-Commission form of government consisting of an elected mayor and four-member board. The City provides a full range of municipal services to its citizens in the areas of police and fire protection, sanitation, health, recreation, library, public improvements, building and zoning, general administrative services, water, wastewater and solid waste collection, and cemetery operations. As required by generally accepted accounting principles (GAAP), these financial statements present the City (primary government) and its component units, entities for which the City is considered to be financially accountable. The component units discussed in the following paragraphs are included in the City's reporting entity because of the significance of their operational or financial relationship to the City.

Discretely Presented Component Units

Discretely presented component units are entities that are legally separate from the City, but are financially accountable to the City, or whose relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The component units are reported in a separate column to emphasize that they are legally separate from the primary government and are governed by separate boards.

The Bradford Memorial Library (the Library) operates the public library in the City. The City Commission appoints the Library's governing body. The Library may not purchase or lease a site or erect a building for use of the Library without the approval of the City Commission. The Library component unit is presented as a governmental fund type and does not issue separate financial statements. The Library taxes are levied under the taxing authority of the City and are included as part of the City's total tax levy. The Library also receives funding through state assistance programs, charges for services, and donations from the public. Also included in the Library's financial data are the operations of the Bradford Memorial Library Endowment (the Endowment), a component unit of the Bradford Memorial Library. The Endowment is a legally separate, tax-exempt organization and is comprised of gifts and bequests that are subject to a requirement that the principal be maintained intact and invested to create a source of income for the Library to supplement the resources that are available to the Library in support of its programs.

El Dorado Senior Center, Inc.'s (the Center) purpose is to provide transportation and programs to senior citizens of the El Dorado community. The Center provides an access for social gatherings, meeting rooms, travel and transportation, and other activities. The Center is fiscally dependent on the City and the City has otherwise assumed the obligation to finance the deficits of the Center, if needed. The City has oversight responsibility of day-to-day operations and administration of the Center. The Center component unit is presented as a governmental fund type and does not issue separate financial statements.

Fiduciary Component Unit

The City has a Retiree Health Care Benefit Plan Trust Fund (the Trust Fund) that is a fiduciary component unit of the City and is reported as a fiduciary fund. The assets of the Trust Fund are held in a legally separate entity for other post-employment benefit arrangements. The City is responsible for all aspects of the Trust Fund including accumulation of resources for post-employment health benefits to qualified employees. The Trust Fund is governed by the City Commission and managed by the finance department of the City.

Joint Venture

During fiscal year 2011, the City announced a collaborative project with Butler County Community College (the College) and El Dorado Unified School District No. 490 (the District) to create the Educational Facilities Authority of Butler County (the Authority). The Authority's board is comprised of seven members, with two appointed from each participant, and the seventh appointed by the other six members. Upon dissolution of the Authority, property owned by the Authority will be transferred to the City, College, and District, or sold with the proceeds thereof paid to the City, College, and District.

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

The Authority is the official governing body of the BG Products Veterans Sports Complex (the Sports Complex), which was constructed and located in City limits. The bowl-design stadium accommodates 3,000 home fans and 1,000 visitors, with a future capacity to seat 4,500 and 2,000, respectively. In addition to the commitment to help fund construction of the Sports Complex, the City had an ongoing financial obligation for certain operating costs of the stadium.

During 2012, the City donated \$3,000,000 to fund its portion of construction. In addition to funds paid for construction, the agreement required the City to pay its portion of utilities, insurance, and maintenance costs associated with the stadium, along with the College and the District. The City's equity interest in the authority as of December 31, 2021 is \$3,000,000.

Separate audited financial statements are not prepared by the Authority.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and deferred outflows of resources and liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements.

Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are generally considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. A 60-day availability period is used for revenue recognition for all governmental fund revenues except property taxes. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed requirements. These resources are reflected as revenues at the time of receipt, or earlier if the susceptible to accrual criteria are met.

Property taxes, sales taxes, franchise taxes, interest associated with the current fiscal period, and certain state and federal grants and entitlements are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City. While property taxes receivable are shown on the balance sheet as current assets of the City, they are not recognized as revenue at year end because statutory provisions prohibit their use until the year for which they were raised and budgeted. Instead, they are offset by unavailable revenue accounts.

The City reports the following major governmental funds:

General Fund - The general fund accounts for all financial resources except those required to be accounted for in another fund.

Debt Service Fund - The debt service fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Construction Fund - The construction fund accounts for the resources accumulated and payments made for the acquisition of capital assets or construction of major capital projects not being financed by proprietary funds.

The City reports the following major proprietary funds:

Waterworks System Fund - The waterworks system fund accounts for the operation of the municipal water utility including water supply, treatment and distribution.

Sewer System Fund - The sewer system fund accounts for the operation of the municipal sewer utility including the collection and treatment of wastewater.

Refuse Fund - The refuse fund accounts for the operation of the refuse utility including the collection and disposal of solid waste and the City's recycling program.

The City also reports the following fund types:

Internal Service Fund - The internal service fund is used to account for the financing of goods or services provided by one department to other departments of the City on a cost reimbursement basis. This fund accounts for the City's information technology activities.

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

Fiduciary Fund – The Retiree Health Care Benefit Plan (Trust Fund) is used to accumulate the resources for postemployment health care benefits to qualified employees.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water, sewer and refuse functions and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the Waterworks System Fund, the Sewer System Fund, and the Refuse Fund are charged to customers for sales and services. Operating expenses for the Waterworks System Fund, Sewer System Fund and Refuse Fund include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Cash and Investments

The City maintains a cash and investment pool that is available for use by all funds. The pool has the general characteristics of demand deposit accounts, in that each fund may deposit additional cash at any time and also may withdraw cash at any time without prior notice or penalty. The pooled cash is invested to the extent available in authorized investments. These pooled investments consist of operating accounts and nonnegotiable certificates of deposit that are recorded at cost because they are not affected by market rate changes. Earnings from investments are allocated to the funds on the basis of the average monthly balance and in accordance with the adopted budget. For the fiscal year ended December 31, 2021, interest earnings allocated to the various funds was \$65,616. Deposits are reported at their carrying amount which approximates fair value.

The City's Retiree Health Care Benefit Plan Trust Fund (fiduciary fund) has investments in mutual funds which are recorded at fair value.

The Library's investments consist of mutual funds, exchange traded funds, and close-end funds which are recorded at fair value.

Statement of Cash Flows

For purposes of the statement of cash flows, the City considers deposits and highly liquid investments with an original maturity of three months or less to be cash equivalents.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). Any residual

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade accounts receivable are shown net of an allowance for uncollectible. Management records an allowance for all account balances not collected within four months.

Governmental funds report unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the governmental funds unavailable revenue is reported as follows:

General fund property taxes receivable	\$	3,848,322
Debt service fund property taxes receivable		1,059,415
Debt service fund special assessments receivable		5,580,019
Nonmajor funds property taxes receivable		198,240
Nonmajor funds special assessment receivable		321,174
Total	\$	11,007,170

Property Taxes and Receivable

The City's property taxes are levied each year on the assessed value of all real estate listed as of the prior January 1, the lien date. Assessed values are established by Butler County. The assessed value upon which the 2021 levy was based was \$97,079,137.

Property taxes are legally restricted for use in financing operations of the ensuing year. Accordingly, the City defers revenue recognition until the year for which they are to be used. Property taxes are levied on November 1. Property owners have the option of paying one-half or the full amount of the taxes levied on or before December 20 during the year levied with the balance to be paid on or before May 10 of the ensuing year. Property taxes become delinquent on December 20 of each fiscal year if the taxpayer has not remitted at least one-half of the amount due. The 2021 tax levy per \$1,000 of assessed valuation was as follows:

General fund		39.952
Debt service fund		10.999
Component unit		
Library		5.185
Nonmajor funds		
Industrial		1.139
Airport		0.919
		58.194

Special Assessment Receivable

As required by State statutes, projects financed in part by special assessments are financed through the issuance of general obligation bonds which are secured by the full faith and credit of the City and are retired from the City's debt service fund. Further, Kansas statutes permit levying additional general ad valorem property taxes in the City's debt service fund to finance delinquent special assessments receivable. Special assessments paid prior to the issuance of bonds are recorded as revenue in the appropriate construction project. Special assessments received after the issuance of bonds are recorded as revenue in the debt service fund. Special assessment taxes are levied over a ten or twenty-year period and the annual installments are due and payable with annual ad valorem property taxes. The City may foreclose liens against property benefited by special assessments when delinquent assessments are two years in arrears. On December 31, the special assessment taxes levied are a lien on the property and are recorded as special assessments receivable in the debt service fund and accrued as revenues in the statement of activities. Since they are not considered available spendable resources for the governmental funds, the special assessments receivable is reported as unavailable revenue in the fund financial statements.

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

Beginning in November 2008, the City levied special assessments to property owners within the City for stormwater maintenance and improvements. On December 31, the stormwater special assessment taxes levied are a lien on the property and are recorded as special assessments receivable in the stormwater utility special revenue fund and accrued as revenues in the statement of activities. Since they are not considered available spendable resources for the governmental funds, the stormwater special assessments receivable is reported as unavailable revenue in the fund financial statements.

Inventories

Inventories are valued at cost as determined by the first-in, first-out method. The purchase method is used to account for these inventories. Under the purchase method, inventories are recorded as expenditures when purchased; however, material amounts of inventories are reported as assets of the respective fund. Inventories in the general fund consist of expendable supplies held for consumption.

Capital Assets

Capital assets, which include property, plant, equipment, infrastructure (e.g., roads, bridges, curbs and gutters, sidewalks and similar items) and construction in progress are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of \$5,000. Capital assets are valued at historical cost or estimated historical cost (if actual historical cost is not available). The historical cost, or estimates of historical cost, for the City's infrastructure assets include all assets acquired or constructed subsequent to January 1, 1980. Donated capital assets are recorded at estimated acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. For proprietary funds, interest costs incurred to bring certain assets to the condition and location necessary for their intended use are capitalized as part of the historical cost of acquiring the assets. Additionally, in situations involving the acquisition of certain assets financed with the proceeds of tax-exempt borrowing, any interest earned on related interest-bearing investments from such proceeds is offset against the related interest costs in determining either capitalization rates or limitations on the amount of interest costs to be capitalized.

Capital assets of the primary government and its component unit are depreciated using the straight-line method over the following estimated useful lives:

Buildings and structures	40 to 50 years
Improvements other than buildings	20 to 60 years
Infrastructure	18 years
Machinery and equipment	5 to 20 years
Office equipment	10 years
Water treatment plants	40 years
Water and sewer mains	75 years

Amortization of assets acquired under capital leases is included in depreciation.

The City acquired water storage space in 1972 for \$28,951,577 which is reported in the waterworks system fund and business-type activities column in the government-wide financial statements as a capital asset. The water storage space acquired is considered to have an indefinite life. As a result, no amortization will be taken on the space rights.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position may report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items that qualify for reporting in this

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

category. One item is deferred outflows for pension and is reported in the government-wide statement of net position. See Note 8 for more information on the deferred outflows for pension. The second is deferred outflows for other postemployment benefits (OPEB). See Note 9 for more information on the deferred outflows for OPEB.

In addition to liabilities, the statement of net position may report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has three items that qualify for reporting in this category. One item, unavailable revenue/deferred receivable is reported in the governmental funds balance sheet and the governmental activities in the government-wide statement of net position. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Governmental activities report deferred receivable only from property taxes. The second item is deferred inflows for pension. See Note 8 for more information on the deferred inflows for the pension. The third item is deferred inflow for OPEB. See Note 9 for more information on the deferred inflows for OPEB.

Compensated Absences

The City's policies regarding personal and sick leave permit employees to accumulate a maximum of 200 hours of personal leave (260 hours for employees with over ten years of continuous service) and a maximum accumulation of 90 days of sick leave. Policies prohibit payment for personal leave in lieu of time off and require cancellation of accumulated sick leave on the date of employment termination. The liability for accrued personal leave is accrued when incurred in the government-wide and propriety fund financial statements. The liability is classified as current or long-term based on previous history of usage by employees. A liability for these amounts is reported in governmental funds only if it has matured, for example, as a result of employee termination or retirement.

Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or propriety fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of KPERS and additions to/deductions from KPERS's fiduciary net position have been determined on the same basis as they are reported by KPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position and Fund Balance

In the government-wide and proprietary fund financial statements, net position is classified into three components:

- Net investment in capital assets - consisting of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, leases, or

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

- Restricted net position - consisting of net position with constraints placed on its use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. The City first utilizes restricted resources to finance qualifying activities.
- Unrestricted net position - All other net position that does not meet the definition of "restricted" or "net investment in capital assets".

In the governmental fund financial statements, fund balance is comprised of five different classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent. The fund balance is classified as follows:

- Non-spendable - Assets legally or contractually required to be maintained or are not in spendable form. Such constraint is binding until the legal requirement is repealed or the amounts become spendable.
- Restricted - Assets with externally imposed constraints, such as those mandated by creditors, grantors, and contributors, or laws and regulations. Such constraint is binding unless modified or rescinded by the applicable external body, laws, or regulations.
- Committed - Assets with a purpose formally imposed by a formal action, an ordinance, of the City Commission, binding unless modified or rescinded by the City Commission.
- Assigned - Comprised of amounts intended to be used by the City for specific purposes that are neither restricted nor committed. The City Commission has by resolution authorized the Finance Director of the City to assign fund balance. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of the assignment.
- Unassigned - All amounts not included in the other fund balance classifications. The general fund shall be the only fund required to report positive unassigned fund balance. All other governmental funds may report negative unassigned fund balance.

In circumstances when an expenditure is made for a purpose which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

Concentrations of Credit Risk

Credit is extended to citizens for special assessments levied by the City for capital improvements. These special assessments are secured by liens on the related properties. Unsecured credit is extended to customers for water, sewer, and refuse fees and charges for services.

Intergovernmental receivables include unsecured amounts due from federal, state, and county agencies for various grant programs.

Adoption of New Governmental Accounting Standards Board Statements

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, enhances the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and simplifies accounting for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

Pending Governmental Accounting Standards Board Statements

At December 31, 2021, the Governmental Accounting Standards Board (GASB) has issued several statements not yet implemented by the City. The statements that might impact the City are as follows:

GASB Statement No. 87, *Leases*, improves accounting and financial reporting for leases by governments. Statement 87 increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for periods beginning after June 15, 2021, as a result of GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*.

GASB Statement No. 91, *Conduit Debt Obligations*, eliminates diversity in practice associated with government issuers' financial reporting of conduit debt obligations. The Statement achieves that objective by classifying the existing definition of a conduit debt obligation, establishing that a conduit debt obligation is not a liability of the issuer, establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations, and improving required note disclosures. The requirements for this statement are effective for periods beginning after December 15, 2021, as a result of GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, provides guidance where some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR) -most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate. The requirements of this Statement are effective for periods beginning after June 15, 2021, as a result of GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). A PPP is an arrangement in which a government contracts with an operator to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset, for a period of time in an exchange or exchange-like transaction. This statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs), which is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements for this statement are effective for periods beginning after June 15, 2022.

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The requirements for this statement are effective for periods beginning after June 15, 2022.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*, (1) increases consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigates costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhances the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The requirements for this statement are effective for periods beginning after June 15, 2021.

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

Kansas statutes require that an annual operating budget be legally adopted for the general fund, special revenue funds (unless specifically exempted by statute), and the debt service fund. Family Life Center, Expendable Trust, Customer Deposit, Law Enforcement Trust, Police Department Seized Assets, Community Improvement District and ARPA special revenue funds are exempted from preparing a legally adopted budget. Although directory rather than mandatory, the statutes provide for the following sequence and timetable in the adoption of the legal annual operating budget:

1. Preparation of the budget for the succeeding calendar year on or before August 1st.
2. Publication in local newspaper on or before August 5th of the proposed budget and notice of public hearing on the budget.
3. Public hearing on or before August 15th, but at least 10 days after publication of notice of hearing.
4. Adoption of the final budget on or before August 25th.

If the City is holding a revenue neutral rate hearing, the budget timeline for adoption of the final budget has been adjusted to on or before September 20th.

The statutes allow for the governing body to increase the originally adopted budget for previously unbudgeted increases in revenue other than ad valorem property taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least 10 days after publication, the hearing may be held, and the governing body may amend the budget at that time. There were budget amendments in the Economic Development Sales Tax Fund for the year ended December 31, 2021.

The statutes permit transferring budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Management has the authority to revise departmental budgets within a fund; however, the City Commission must approve changes to the appropriations at the fund level. Budget comparison statements are presented for each fund showing actual receipts and expenditures compared to legally budgeted receipts and expenditures.

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

All legal annual operating budgets are prepared using the modified accrual basis of accounting, modified further by the encumbrance method of accounting. Revenues are recognized when cash is received. Expenditures include disbursements, accounts payable, and encumbrances. Encumbrances are commitments by the municipality for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. All unencumbered appropriations (legal budget expenditure authority) lapse at year end. Encumbrances outstanding in the governmental funds financial statements at year end are reported as reservations of fund balances and do not constitute liabilities because the commitments will be honored during subsequent years.

Spending in funds which are not subject to the legal annual operating budget requirement is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the governing body.

Deficit Net Position

The waterworks system fund had a deficit net position of \$13,143,301 at December 31, 2021 due to the recording of the water storage space payable.

Excess of Expenditures Over Budget Appropriations

Expenditures exceeded budget appropriations in the sewer fund by \$32,666 for the year ended December 31, 2021, which is in violation of K.S.A. 79-2935.

Bond Compliance

Bond payments were not received twenty days before the payment was due, which is in violation of K.S.A. 10-130.

NOTE 3 – DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk – deposits. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. Kansas statutes require the City's deposits in financial institutions to be entirely covered by federal depository insurance or be collateralized, and that collateral pledged must have a fair value equal to 100% of the deposits and investments, less insured amounts, and must be assigned for the benefit of the City.

The City maintains a cash and investment pool that is available for use by all funds. Each fund's portion of this pool is included in cash and investments on the balance sheet. At December 31, 2021, the City's carrying amount of deposits, including certificates of deposit, was not exposed to custodial credit risk.

The carrying amounts of deposits for the Library and the Center, discretely presented component units, were not exposed to custodial credit risk at December 31, 2021.

Investments

As of December 31, 2021, the City had the following investments:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1 - 5	6 - 10	More Than 10
Fixed Income Mutual Funds	\$ 338,553	338,553	-	-	-
Domestic Equity Mutual Funds	121,287	121,287	-	-	-
International Equity Mutual Funds	32,490	32,490	-	-	-
Real Estate Mutual Funds	24,552	24,552	-	-	-
	\$ 516,882	516,882	-	-	-

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

Discretely Presented Component Unit - Library

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1 - 5	6 – 10	More Than 10
Mutual Funds, EFTs, and Closed-End Funds	\$ 287,791	287,791	-	-	-
Money Market Mutual Funds	12,925	12,925	-	-	-
	\$ 300,716	300,716	-	-	-

Interest rate risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. State statutes establish a two-year limitation on investment maturities. The City is not exposed to significant interest rate risk.

Credit risk. K.S.A. 12-1675 limits the City's investment of idle funds to time deposits, open accounts, and certificates of deposit with allowable financial institutions; U.S. government securities; temporary notes; no-fund warrants; repurchase agreements; and the Kansas Municipal Investment Pool. The City has no investment policy that would further limit its investment choices.

Concentration of credit risk. Kansas statutes place no limit on the amount the City may invest in any one issuer as long as the investments are adequately secured under K.S.A. 9-1402 and 9-1405.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the issuer or counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At December 31, 2021, the City's investments were not exposed to custodial credit risk.

Fair value measurement. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles (GAAP). The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

At December 31, 2021, the City's fiduciary fund investments were categorized within the fair value hierarchy as follows:

City		Fair Value Measurement at Reporting Date Using		
Investment Type	Fair Value	Level 1	Level 2	Level 3
Mutual Funds	\$ 516,882	516,882	-	-

Library		Fair Value Measurement at Reporting Date Using		
Investment Type	Fair Value	Level 1	Level 2	Level 3
Mutual Funds	\$ 300,716	300,716	-	-

CITY OF EL DORADO, KANSAS

NOTE 5 – CAPITAL PROJECTS

The City is currently working on paving projects and performing various improvements. These projects are being funded primarily with federal grant monies and by the issuance of bonds.

Following is a summary of costs to December 31, 2021 for capital projects compared to the amount authorized:

Project	Costs-to-Date	Amount Authorized
Paving 9 th Avenue (Gordy to Taylor)	\$ 2,489	1,244,987
Paving Hunton Road and Simpson Road	35,711	1,204,881
Paving 5 th Avenue and 2 nd Avenue	14,073	435,244
Myers East Addition Paving	18,079	278,667

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

Myers East Addition Sewer	\$	15,878	229,512
Paving Deer Run		21,982	424,329
Sanitary Sewer Deer Run		12,410	132,756
Resurfacing Central and S. Main		18,975	565,043

NOTE 6 – LONG-TERM DEBT

General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities.

General obligation bonds payable on December 31, 2021 are comprised of the following issues:

	Interest Rates	Original Issue	Final Maturity Date	Principal Payments in 2021	Outstanding December 31, 2021
General Obligation Bonds					
Governmental Activities					
Series 2010	1.60 - 3.35%	\$ 1,648,262	11/1/2025	\$ 72,951	318,678
Series 2011	2.00 - 3.50%	5,715,000	11/1/2032	3,610,000	-
Series 2013	1.65 - 2.75%	4,644,322	11/1/2028	498,480	1,166,000
Series 2015	2.00 - 4.00%	3,357,000	11/1/2025	424,693	1,235,904
Series 2016	1.25 - 2.00%	1,690,000	11/1/2027	140,000	750,000
Series 2019	3.00%	2,835,000	11/1/2039	110,000	2,655,000
Series 2021	2.00% - 4.00%	6,340,000	11/1/2041	-	6,340,000
				<u>4,856,124</u>	<u>12,465,582</u>
Business-Type Activities					
Series 2010	1.60 - 3.35%	546,738	11/1/2025	22,050	96,322
Series 2013	1.65 - 2.75%	2,000,678	11/1/2028	161,520	819,000
Series 2015	2.00 - 4.00%	580,000	11/1/2025	60,307	249,096
Series 2016	1.25 - 2.00%	6,530,000	11/1/2027	640,000	3,710,000
				<u>883,877</u>	<u>4,874,418</u>

Bond Refunding Debt Defeasance

On December 14, 2021, the City issued Series 2021-A General Obligation Refunding and Improvement bonds of \$6,340,000 (par value) with an interest rate of 2.00-4.00%. The bond proceeds were used to current refund \$3,340,000 of Series 2011 General Obligation bonds and to issue \$3,385,000 in new bonds. The Series 2021-A bonds were issued at a premium of \$781,279, and after paying issuance costs of \$85,275 and underwriter's discount of \$52,791, the net proceeds were \$6,983,213. The current refunding met the requirements of a debt defeasance and the term bonds in the amount of \$3,340,000 were called on December 21, 2021. The Series 2021-A bonds mature on November 1, 2041 and will be subject to optional redemption and payment prior to their stated maturity. The City completed the refunding to reduce its total debt service requirements and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$351,294.

Revolving Loans Payable – Direct Borrowing

During 2011, the City entered into a loan agreement with the Kansas Department of Health and Environment's Kansas Water Pollution Control Revolving Fund. The agreement enabled the City to borrow \$2,106,252 to finance the construction of a new one-megawatt wind turbine generator at the City's wastewater treatment facility. The loan is being repaid over twenty years at an interest rate of 2.43%. The outstanding balance of \$800,003 is shown as a liability in the sewer fund. The future annual debt service requirements as of December 31, 2021 are as follows:

	<u>Principal</u>	<u>Interest and Service Fees</u>	<u>Total</u>
2022	\$ 61,085	19,071	80,156
2023	62,579	17,578	80,157
2024	64,109	16,048	80,157
2025	65,676	14,481	80,157
2026	67,282	12,875	80,157
2027-2031	361,901	38,883	400,784
2032-2033	<u>117,371</u>	<u>2,864</u>	<u>120,235</u>
	<u>\$ 800,003</u>	<u>121,800</u>	<u>921,803</u>

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

During 2015, the City entered into a loan agreement with the Kansas Department of Health and Environment. The agreement enabled the City to borrow \$1,058,908 to finance significant wastewater collection system improvements. The loan will be repaid over twenty years at an interest rate of 2.20%. The outstanding balance of \$823,181 is shown as a liability in the sewer fund. The future annual debt service requirements for the revolving loan payable as of December 31, 2021 are as follows:

	Principal	Interest	Total
2022	\$ 46,876	23,623	70,499
2023	47,913	22,242	70,155
2024	48,973	20,831	69,804
2025	50,056	19,388	69,444
2026	51,163	17,913	69,076
2027-2031	273,302	50,345	323,647
2032-2036	304,898	18,749	323,647
	\$ 823,181	173,091	996,272

Liability for Water Storage Space – Direct Borrowing

In 1972, the City entered into a contract with the United State Army Corps of Engineers (the Corps) whereby the City provided land and waterworks system assets and the Corps provided personnel and equipment to construct and expand a reservoir. The project was completed in 1983. The contract required the City to reimburse the Corps for construction costs of \$26,435,400, plus interest compounded annually at 3.502% commencing July 1, 1992, with a final maturity date of July 1, 2081. Payments accelerate if water usage exceeds certain minimum quantities. There have been two instances where the City's water usage exceeded the minimum quantities and accelerated payment schedules have been set up for each in 1992 and 2003. The remaining principal balance of the construction costs associated with future water storage space that is accruing interest compounded annually at 3.502% until the final maturity date of July 1, 2081, is \$18,500,024. The payable increased during 2021 by \$1,757,932 representing accrued interest. At December 31, 2021, the liability including accrued interest is \$51,955,861. The amount to be paid in 2081, including accrued interest if the City does not accelerate additional payments for exceeding the minimum quantities for water usage, will be approximately \$410,000,000.

Capital Leases – Direct Borrowing

The City has entered into lease agreements as lessee for financing the acquisition of equipment. This year, \$59,550 was included in depreciation expense. These lease agreements qualify as capital leases and therefore have been recorded at the present value of their future minimum lease payments as of the inception date.

The assets acquired through capital leases are as follows:

Aerial Firetruck	\$	1,152,052
Less Accumulated Depreciation		(308,418)
Net Book Value	\$	843,634

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

The following is a schedule of future minimum lease payments for capital leases as of December 31, 2021:

	Principal	Interest	Total
2022	\$ 119,936	8,928	128,864
2023	122,336	6,528	128,864
2024	124,771	4,093	128,864
2025	127,281	1,601	128,882
2026	10,774	18	10,792
	<u>\$ 505,098</u>	<u>21,168</u>	<u>526,266</u>

Changes in Long-Term Liabilities

Long-term liability activity for the year ended December 31, 2021 was as follows:

	Balance January 1, 2021	Additions	Reductions	Outstanding December 31, 2021	Due Within One Year
Governmental Activities					
General Obligation Bonds	\$ 10,981,706	6,340,000	(4,856,124)	12,465,582	1,295,483

Water Storage Space Payable - Direct Borrowing	50,197,930	1,757,931	-	51,955,861	-
Compensated Absences	159,145	115,716	(128,845)	146,016	10,643
Net Other Post-Employment Benefits Liability	227,392	-	33,972	261,364	-
Net Pension Liability	1,532,485	-	(315,555)	1,216,930	-
Total Long-Term Liabilities - Business-Type Activities	<u>59,603,920</u>	<u>1,873,647</u>	<u>(1,399,794)</u>	<u>60,077,773</u>	<u>963,121</u>
Component Unit Activities					
General Obligation Bonds	\$ 180,000	-	(30,000)	150,000	30,000
Compensated Absences	20,731	15,376	(15,850)	20,257	-
Net Other Post-Employment Benefits Liability	11,654	-	(2,875)	8,779	-
Net Pension Liability	260,031	-	(76,087)	183,944	-
Total Long-Term Liabilities - Business-Type Activities	<u>\$ 472,416</u>	<u>15,376</u>	<u>(124,812)</u>	<u>362,980</u>	<u>30,000</u>

For the governmental activities, compensated absences and the net pension liability are generally liquidated by the general fund.

Conduit Debt Obligations

From time to time, the City has issued Industrial Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance.

Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of December 31, 2021, Industrial Revenue Bonds outstanding had an aggregated principal amount payable of approximately \$58,721,802.

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

Community Improvement Districts (CID) Program

In 2009, the Kansas Legislature enacted the Community Improvement District Act (the CID Act), pursuant to which municipalities may create districts in which certain special taxes are imposed and the revenue generated by these special taxes is used to fund certain public and private improvements, including certain ongoing operating costs, within the geographic bounds of the district. In 2017, four separate community improvement districts (CID) were established to finance the specific district's community development. In 2020, another CID was established. The City is not obligated in any manner for repayment of this debt.

NOTE 7 – INTERFUND TRANSFERS

Interfund transfers reflect the flow of resources from one fund to another fund, generally from the fund in which the resources are received or reside to the fund in which the resources will be expended. Interfund transfers for the year ended December 31, 2021 were as follows:

	Transfers Out	Transfers In
Major Governmental Funds		
General	\$ 2,625,680	987,000
Debt Service	57,325	200,000
Construction	63,247	1,924,108
Nonmajor Governmental Funds	1,529,599	2,367,914
Major Proprietary Funds		
Waterworks System	712,871	-
Sewer System	412,300	-
Refuse	78,000	-
	\$ 5,479,022	5,479,022

Transfers were used to move revenues from the fund that statutes or the budget requires to collect to the fund that statutes or budget requires to expend them, move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authority, and eliminate negative cash balances in the payable funds due to project payment timing.

NOTE 8 – DEFINED BENEFIT PENSION PLAN

Plan Description

City of El Dorado, Kansas and the Library participate in a cost-sharing multiple-employer defined benefit pension plan (Pension Plan), as defined in Governmental Accounting Standards Board Statement No. 67, *Financial Reporting for Pension Plans*. The Pension Plan is administered by the Kansas Public Employees Retirement System (KPERs), a body corporate and an instrumentality of the State of Kansas. KPERs provides benefit provisions to the following statewide pension groups under one plan, as provided by K.S.A. 74, article 49:

- Public Employees, which includes
 - State/School employees
 - Local employees
- Police and Firemen
- Judges

Substantially all public employees in Kansas are covered by the Pension Plan. Participation by local political subdivisions is optional, but irrevocable once elected.

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

Those employees participating in the Pension Plan for the City and the Library are included in the Local and Police and Firemen employees' groups.

KPERS issues a stand-alone comprehensive annual financial report, which is available on the KPERS website at www.kpers.org.

Benefits

Benefits are established by statute and may only be changed by the Kansas Legislature. Member employees (except police and firemen) with ten or more years of credited service may retire as early as age 55 (police and firemen may be age 50 with 20 years of credited service), with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with ten years of credited service, or whenever an employee's combined age and years of credited service equal 85 "points". Police and firemen's normal retirement ages are age 60 with 15 years of credited service, age 55 with 20 years, age 50 with 25 years, or any age with 36 years of service.

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, member employees may withdraw their contributions from their individual accounts, including interest. Member employees who withdraw their accumulated contributions lose all rights and privileges of membership. For all pension coverage groups, the accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74-4922.

Member employees choose one of seven payment options for their monthly retirement benefits. At retirement a member may receive a lump sum payment of up to 50% of the actuarial present value of the member employee's lifetime benefit. The monthly retirement benefit is then permanently reduced based on the amount of the lump sum. Benefit increases, including ad hoc post-retirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas.

The 2012 Legislature made changes affecting new hires, current members, and employers. A new KPERS 3 cash balance retirement plan for new hires starting after January 1, 2015, was created. Normal retirement age for KPERS 3 is 65 with 5 years of service or 60 with 30 years of service. Early retirement is available at age 55 with 10 years of service with a reduced benefit. Monthly benefit options are an annuity benefit based on the account balance at retirement.

For all pension coverage groups, the retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74-4922.

Contributions

Member contributions are established by state law, and are paid by the employee according to the provisions of Section 414(h) of the Internal Revenue Code. State law provides that the employer contribution rates are determined based on the results of an annual actuarial valuation. The contributions and assets of all groups are deposited in the Kansas Public Employees Retirement Fund established by K.S.A. 74-4921. All of the retirement systems are funded on an actuarial reserve basis.

For fiscal years beginning in 1995, Kansas legislation established statutory limits on increases in contribution rates for KPERS employers. Annual increases in the employer contribution rates related to subsequent benefit enhancements are not subject to these limitations. The statutory cap increase over the prior year contribution rate is 1.2% of total payroll for the fiscal year ended June 30, 2021.

The actuarially determined employer contribution rate (not including the 1% contribution rate for the Death and Disability Program) and the statutory employer capped contribution rate for local government employees are both 8.87%. The actuarially determined employer contribution rate (not including the 1%

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

contribution rate for the Death and Disability Program) and the statutory employer capped contribution rate for police and firemen employees are both 22.80%. The member contribution rates as a percentage of eligible compensation for the fiscal year ended June 30, 2021 was 6.00% for local government employees and 7.15% for police and firemen.

Contributions to the pension plan from the City were \$394,916 for KPERS and \$541,921 for KP&F, and from the Library were \$23,058 for KPERS for the year ended December 31, 2021.

Employer Allocations

Although KPERS administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense are determined separately for each of the following groups of the plan:

- State/School
- Local
- Police and Fireman
- Judges

To facilitate the separate (sub) actuarial valuations, KPERS maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer and nonemployer allocations are applied to amounts presented in the schedules of pension amounts by employer and nonemployer.

The allocation percentages for the City and Library's share of the collective pension amounts as of December 31, 2021 were based on the ratio of each employer's contributions to the total employer and nonemployer contributions of the group for the fiscal year ended June 30, 2021.

The contributions used exclude contributions made for prior service, excess benefits and irregular payments.

Net Pension Liability

Net pension liability activity for the year ended December 31, 2021 was as follows:

	Local Government	Police and Firemen	Library
Net Pension Liability	\$2,732,778	\$3,967,066	\$183,944
Measurement Date	June 30, 2021	June 30, 2021	June 30, 2021
Valuation Date	December 31, 2020	December 31, 2020	December 31, 2020
City's Proportion	0.228%	0.416%	0.015%
Change in Proportion	0.006%	0.022%	0.000%

Pension Plan Fiduciary Net Position. Detailed information about the Pension Plan's fiduciary net position is available in the separately issued KPERS financial report.

Actuarial Assumptions

The actuarial valuation used the following actuarial assumptions applied to all periods included in the measurement:

Actuarial Cost Method	Entry age normal
Price inflation	2.75%

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

Salary increase	3.50 to 12.00%, including price inflation
Investment rate of return net of investment expense, including price inflation	7.25% compounded annually

Mortality rates were based on the RP 2014 Mortality Tables, with age setbacks and age set forwards as well as other adjustments based on different membership groups. Future mortality improvements are anticipated using Scale MP-2016.

The actuarial assumptions used in the December 31, 2020 valuation were based on the results of an actuarial experience study conducted for the three year period January 1, 2016 through December 31, 2018. The experience study is dated January 7, 2020.

The long-term expected rate of return of pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class of the most recent experience study, dated January 7, 2020, as provided by KPERS' investment consultant, are summarized in the following table:

Asset Class	Long-Term Target Allocation	Long-Term Expected Real Rate of Return
U.S. Equities	23.50 %	5.20 %
Non-U.S. Equities	23.50	6.40
Private Equity	8.00	9.50
Private Real Estate	11.00	4.45
Yield Driven	8.00	4.70
Real Return	11.00	3.25
Fixed Income	11.00	1.55
Short-term Investments	4.00	0.25
Total	100.00 %	

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The local groups do not necessarily contribute the full actuarial determined rate. Based on legislation passed in 1993 and subsequent legislation, the employer contribution rates certified by the Board may not increase by more than the statutory cap. The statutory cap was 1.2%.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	<u>1% Decrease (6.25%)</u>	<u>Discount Rate (7.25%)</u>	<u>1% Increase (8.25%)</u>
Local Employees	\$ 4,495,158	\$ 2,732,778	\$ 1,254,803
Police and Firemen	5,954,194	3,967,066	2,304,842
Library	302,566	183,944	84,460

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

Pension Expense

For the year ended December 31, 2021, the City recognized pension expense of \$780,374 and \$20,171 for the Library, which includes the changes in the collective net pension liability, projected earnings on pension plan investments, and the amortization of deferred outflows of resources and deferred inflows of resources for the current period.

At December 31, 2021, the City and the Library reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

City		
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ 420,901	24,746
Net differences between projected and actual earnings on investments	-	2,011,168
Change of assumptions	249,417	213,696
Changes in proportionate share	1,042,567	-
City contributions subsequent to measurement date	488,508	-
Total	\$ 2,201,393	2,249,610
Library		
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ 7,261	1,667
Net differences between projected and actual earnings on investments	-	65,318
Change of assumptions	36,210	-
Changes in proportionate share	11,972	1,650
Library contributions subsequent to measurement date	10,325	-
Total	\$ 65,768	68,635

The \$488,508 and \$10,325 for the City and the Library, respectively, reported as deferred outflows of resources related to pensions resulting from City's and Library's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	City	Library
2021	\$ (56,340)	1,147
2022	(46,844)	(322)
2023	(79,217)	(1,328)
2024	(406,198)	(14,138)
2025	51,874	1,449
Total	\$ (536,725)	(13,192)

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

NOTE 9 – OTHER POSTEMPLOYMENT HEALTHCARE BENEFITS

Health Insurance

Plan Administration

The City's other postemployment benefits (OPEB) are accounted for through the Retiree Health Care Benefit Plan Trust (the Plan). The Plan is a single-employer defined benefit health care plan administered by the City to provide medical, prescription drug, dental, and vision benefits to retired employees and their dependents under certain conditions. The Plan is governed by the City Commission and managed by the finance department of the City.

Funding Policy

The City provides health insurance benefits to retirees and their dependents in accordance with Kansas law (K.S.A. 12-5040). Kansas statutes, which may be amended by the state legislature, establish that participating retirees may be required to contribute to the employee group health benefits plan, including administrative costs at an amount not to exceed 125 percent of the premium cost for other similarly situated employees.

Plan Membership

At December 31, 2021, Plan membership consisted of the following:

Inactive plan members currently receiving benefit payments	3
Inactive plan members entitled to but not yet receiving benefit payments	-
Active plan members	129
Total	132

Benefits Provided

Individuals who are employees of the City and are full-time employees who are enrolled in the City's group health plan on the date before retirement are eligible to continue healthcare benefits upon retirement from service with the City on or after at least 10 years of service. Part-time employees are assumed not to be eligible for retiree health, dental or vision benefits. Retirees covered by the plan make contributions toward the plan premiums in certain situations.

Contributions

The City has adopted a funding policy that provides reasonable assurance the cost of benefits provided to the Plan's members will be funded in an equitable and sustainable manner. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually. The City Commission has the authority to provide and amend the contribution terms of the Plan.

Net OPEB Liability

At December 31, 2021, the City's net OPEB liability was \$676,602. The net OPEB liability was measured as of December 31, 2021 and was determined by an actuarial valuation performed as of January 1, 2021.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the January 1, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods in the measurement, unless otherwise specified:

Measurement Date	December 31, 2021
Valuation Date	January 1, 2021
Reporting Date for Employer	December 31, 2021
Measurement Period	January 1, 2021 to December 31, 2021
Discount Rate	6.00%

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

Inflation Rate	2.50%
Salary Increases	5.00%
Mortality Table	RP-2014 Total Employee and Healthy Annuitant tables adjusted to 2006 and projected with MP-2021 future mortality improvement scale
Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Market Value
Investment Rate of Return	6.00%

Health Care Cost Trend Rates

Year	Claims Rate %	Expenses Rate %
2021	6.50	4.00
2022	6.25	4.00
2023	6.00	4.00
2024	5.75	4.00
2025	5.50	4.00
2026	5.25	4.00
2027+	5.00	4.00

The actuarial assumptions used in the January 1, 2021 valuation were based on actual claims experience for the period January 1, 2012 to June 30, 2020 and blended with anticipated claims based on the Plan provisions.

Discount Rate

The discount rate used to measure the total OPEB liability was 6%. The projection of cash flows used to determine the discount rate assumed the City contributions will be made at rates equal to the actuarially determined contribution rates. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on OPEB Plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in the Net OPEB Liability

	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) – (b)

2022	\$	41,195
2023		35,892
2024		32,426
2025		37,813
2026		36,774
Thereafter		96,837
Total	\$	280,937

Disability Benefits and Life Insurance

Plan Description

The City contributes to the KPERS Long-Term Disability plan, a single-employer defined benefit other post-employment benefit (OPEB) plan which is administered by a board of trustees appointed by KPERS. The Plan provides long-term disability benefits and life insurance benefit for disabled members to KPERS members, as provided by K.S.A. 74-4925. The plan is administered through a trust held by KPERS that is funded to pay annual benefit payments. However, because the trust's assets are used to pay employee

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

benefits other than OPEB, no assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75. There is no stand-alone financial report for the plan.

Benefits Provided

Benefits are established by statute and may be amended by the KPERS Board of Trustees. The Plan provides long-term disability and life insurance benefits to eligible disabled members. Benefits provided are self-funded, and the full cost of the benefits is covered by the OPEB Plan. The monthly benefit is 60% of the member's monthly rate of compensation, with a minimum of \$100 and a maximum of \$5,000. The monthly benefit is subject to reduction by deductible sources of income, which include Social Security primary disability or retirement benefits, worker's compensation benefits, other disability benefits from any other source by reason of employment, and earnings from any form of employment. If the disability begins before age 60, benefits are payable while disability continues until the member's 65th birthday or retirement date, whichever first occurs. If the disability occurs at or after age 60, benefits are payable while disability continues, for a period of five years or until the date of the member's retirement, whichever first occurs. Upon the death of a member who is receiving monthly disability benefits, the plan will pay a lump sum benefit to eligible beneficiaries. The benefit amount will be 150% of the greater of (a) the member's annual rate of compensation at the time of disability, or (b) the member's previous 12 months of compensation at the time of the last date on payroll. If the member had been disabled for five or more years, the annual compensation or salary rate at the time of death will be indexed before the life insurance benefit is computed. The indexing is based on the consumer price index, less one percentage point. If a member is diagnosed as terminally ill with a life expectancy of 12 months or less, he or she may be eligible to receive up to 100% of the death benefit rather than having the benefit paid to the beneficiary.

Employer contributions are established and may be amended by state statute. Members are not required to contribute. Employer contributions paid for benefits as they came due during the fiscal year ended December 31, 2021 totaled \$21,248 and \$1,435 for the City and Library, respectively.

Employees Covered by Benefit Terms. As of the valuation date of December 31, 2020, the following employees were covered by the benefit terms:

	City	Library
Inactive plan members or beneficiaries currently receiving benefit payments	-	1
Active plan members	86	9
	86	10

Total OPEB Liability

The total OPEB liability for the City and Library of \$112,668 and \$8,779, respectively, was measured as of June 30, 2021 and was determined by an actuarial valuation performed as of December 31, 2020.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all period included in the measurement, unless otherwise noted:

Discount Rate	2.16%
Implicit Inflation Rate	2.75%
Mortality Rates	Local Males: 90% of RP-2014 M Total Dataset +2 Local Females: 90% of RP-2014 F Total Dataset +1 Generational mortality improvements were projected for future years using MP-2021 Post-disability mortality rates are included in long-term disability claim termination rates.
Salary Increases	3.50% to 10.00% based on years of service
Payroll Growth	3.00%
Actuarial Cost Method	Entry Age Normal

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

The discount rate was based on the bond buyer general obligation 20-bond municipal index as of the measurement date.

The actuarial assumptions used in the December 31, 2020 valuation were based on the results of an actuarial experience study conducted for the period January 1, 2016 through December 31, 2018.

There were no significant changes between the valuation date and the fiscal year end.

The aggregate amount of OPEB expenses for the two OPEB plans for the year ended December 31, 2021 was \$115,613 for the City.

NOTE 10 – COMMITMENTS AND CONTINGENCIES

The City is a defendant in various legal actions pending or in process for miscellaneous claims. The ultimate liability that might result from the final resolution of these matters is not presently determinable. It is the opinion of the City's management that the outcome of this litigation will not result in a material loss to the City in excess of applicable insurance coverage.

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

NOTE 11 – ENCUMBRANCES

Encumbrances included in fund balances as of December 31, 2021 are reported in the accompanying table:

<u>Fund</u>	<u>Encumbrances</u>
Major Funds	
Construction Fund	\$ 1,788,834
Sewer Fund	189,643
Nonmajor Governmental Funds	<u>559,383</u>
Total Reporting Entity	\$ <u>2,537,860</u>

NOTE 12 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; damage to and destruction of assets; business interruptions; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than related to employee health benefits. Settled claims have not exceeded this commercial coverage in any of the three preceding years. There have not been significant reductions in coverage from prior years.

Health Reimbursement Arrangement

The City entered into a Health Reimbursement Arrangement (HRA) during 2021. The full-time employee benefit is an HRA as defined by Section 105 of the Internal Revenue Code. The HRA plan is funded solely by the employer. The HRA plan allows for reimbursement of certain out-of-pocket medical and prescription drug costs incurred by the employee, their spouse or their dependents. The maximum allowance per year through BCBS is \$6,350 for employee only, \$12,700 for employee and spouse, employee and children and employee and family. Of this amount the employee is responsible for \$2,500 for employee only and \$5,000 for employee and spouse, employee and children and employee and family. The City is responsible for the difference. The amount the City paid in HRA reimbursements was \$232,769 for the year ended December 31, 2021.

NOTE 13 – TAX ABATEMENTS

The City entered into sales tax abatement agreements with local businesses for the purpose of attracting businesses within its jurisdiction. The abatements were for Community Improvement Districts where the City was the agent for the abated sales taxes. For the fiscal year ended December 31, 2021, abated sales taxes that impacted the City totaled \$170,913.

NOTE 14 – PRIOR PERIOD ADJUSTMENT

During the year ended December 31, 2021, certain adjustments were made that required the restatement of fund balances or net position.

Deferred revenue on a project was understated in a previous year by \$166,645 in the expendable trust fund.

CITY OF EL DORADO, KANSAS
Notes to the Basic Financial Statements
For the Year Ended December 31, 2021

The following restatements were made to beginning net position or fund balance:

<u>Financial Statements/Fund</u>	<u>As Previously Stated</u>	<u>Prior Period Adjustment</u>	<u>Restated</u>
Government-wide Financial Statements			
Governmental Activities	\$ 39,152,001	(166,645)	38,985,356
Individual Fund Financial Statements			
Governmental Funds			
Expendable Trust Fund	\$ 286,258	(166,645)	119,613

NOTE 15 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through July 18, 2022, which is the date the financial statements were available to be issued.

Notes to Required Supplementary Information
Kansas Public Employee Retirement System
December 31, 2021

Changes in assumptions.

As a result of the experience study completed in November 2016, there were several changes made to the actuarial assumptions and methods since the prior valuation are as follows:

- The price inflation assumption was lowered from 3.00% to 2.75%.
- The investment return assumption was lowered from 8.00% to 7.75%.
- The general wage growth assumption was lowered from 4.00% to 3.50%.
- The payroll growth assumption was lowered from 4.00% to 3.00%.

Changes from the November 2016 experience study that impacted individual groups are listed below:

KPERS

- The post-retirement health mortality assumption was changed to the RP-2014 Mortality Table, with adjustments to better fit the observed experience for the various KPERS groups. The most recent mortality improvement scale, MP-2016, is used to anticipate future mortality improvements in the valuation process through the next experience study.
- The active member mortality assumption was modified to also be based on the RP-2014 Employee Mortality Table with adjustments.
- The retirement rates for the select period (when first eligible for unreduced benefits under Rule of 85) were increased, but all other retirement rates were decreased.
- Disability rates were decreased for all three groups.
- The termination of employment assumption was increased for all three groups.
- The interest crediting rate assumption for KPERS 3 members was lowered from 6.50% to 6.25%.

KP&F

- The post-retirement healthy mortality assumption was changed to the RP-2014 Mortality Table with 1-year age set forward and the MP-2016, is used to anticipate future mortality improvements.
- The mortality assumption for disabled members was changed to the RP-2014 Disabled Lives Table (generational using MP-2016) with a 1-year age set forward.
- The active member mortality assumption was modified to the RP-2014 Employee Mortality Table with a 1- year age set forward with a 90% scaling factor.
- The retirement rates for Tier 1 were lowered and the ultimate assumed retirement age was changed from 63 to 65 for Tier 2.
- The termination of employment rates for Tier 2 were increased to better match the observed experience.

As a result of the experience study completed in January 2020, there were several changes made to the actuarial assumptions and methods since the prior valuation. The changes that impact all groups were effective December 31, 2019 and include:

- The investment return assumption was lowered from 7.75% to 7.25%.
- The general wage growth assumption was lowered from 3.50% to 3.25%.
- The payroll growth assumption was lowered from 3.00% to 2.75%.

Changes from the January 2020 experience study that impacted individual groups are listed below:

KPERS

- Retirement rates were adjusted to partially reflect observed experience.
- Termination rates were increased for most KPERS groups.

CITY OF EL DORADO, KANSAS
Notes to Required Supplementary Information
Kansas Public Employee Retirement System
December 31, 2021

- Disability rates were reduced.
- Factors for the State group that are used to anticipate higher liabilities due to higher final average salary at retirement for pre-1993 hires were modified to better reflect actual experience.
- The administrative expense load for contributions rates was increased from 0.16% to 0.18%.

KP&F

- Retirement rates were adjusted to partially reflect observed experience.
- Factors for the KP&F group that are used to anticipate higher liabilities due to higher final average salary at retirement for pre-1993 hires were modified to better reflect actual experience.
- The administrative expense load for contributions rates was increased from 0.16% to 0.18%

Other Supplementary Information

Combining Financial Statements and Individual Fund Schedules

NONMAJOR GOVERNMENTAL FUNDS

The primary purpose of the Special Revenue Funds is to account for and report the proceeds of specific sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The following Nonmajor Special Revenue Funds are reported:

Airport Fund – to account for the operations of the municipal airport.

Major Street Improvement Fund – to account for the state shared tax for the construction, reconstruction, or maintenance of streets.

Industrial Development Fund – to account for the promotion of industrial development funded by a special ad valorem tax.

Special Parks and Recreation Fund – to account for the state shared tax and park land development fees for parks and recreation.

Tourism Tax Fund – to account for the promotion of conventions and tourism. Financing is provided through a tax on motel rooms.

Economic Development Sales Tax Fund – to account for the accumulation and expenditure of sales tax revenues committed by City Commission ordinance for economic development purposes.

Stormwater Utility Fund – to account for resources made available for repair and improvement to the City's stormwater system. Financing is provided through property owner special assessments.

Family Life Center Fund – to account for the Federal grant moneys received for improvement and repair of the local shelter for battered women.

Expendable Trust Fund – to account for public donations and grant programs to sponsor specified youth activities and other community activities conducted by the City.

Customer Deposit Fund – to account for resources through private-sector insurance proceeds and other City resources utilized in the cleanup operations of fire damages.

Law Enforcement Trust Fund – to account for the proceeds from the sale of property seized through law enforcement proceedings.

Police Department Seized Assets Fund – to account for any money obtained due to assets being seized; the state awards the money to the City for seizing said assets. The money cannot be used to reduce the operating fund, instead, it is used for police department purchases at the discretion of department heads.

Ordinance Street Sales Tax Fund – to account for sales tax revenue created by ordinance for street repairs, street rehabilitation, and maintenance.

Excess Sales Tax Fund – to account for sales tax revenue created by ordinance for any capital expenditure requested by any citizen or organization of the City with approval by the City Commission of the capital expenditures.

Special Alcohol Program Fund – to account for liquor tax revenue created by ordinance to provide support for domestic violence shelters for adults or children.

Community Improvement District Fund – established to support and finance economic development activities.

ARPA Fund – to account for COVID-19 relief monies received from the American Rescue Plan Act.

STATISTICAL SECTION

CITY OF EL DORADO, KANSAS
Statistical Section (Unaudited)
December 31, 2020

This part of **City of El Dorado, Kansas**' financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the City's ability to generate its most significant local revenue source, water and wastewater revenues, as well as its property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economical Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time with other governments.

Operating Information

These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Annual Financial Report for the relevant year.

¹ In 2013, the decrease in fair value of investments for the water fund created a negative revenue.

² In 2021, the negative miscellaneous amount is due to a negative gain on the sale of capital assets.

Notes:

¹ The year shown is the year in which taxes are levied for collection in the following fiscal year.

² Overlapping rates are those of local and county governments that apply to property owners within the city limits of El Dorado. Not all overlapping rates apply to all property owners. The rates for Unified School District No. 490 and Unified School District No. 375 only apply to approximately 82.1% and 17.9%, respectively, of the property in El Dorado. The rates for Unified School District No. 205 only apply to two businesses located at the El Dorado municipal airport.

Total direct and overlapping debt	<u><u>\$ 179,692,684</u></u>		<u><u>\$ 59,085,752</u></u>

Source: The debt outstanding was provided by each entity.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property owners of El Dorado. USD 205's tax rates apply to only two businesses, and therefore the estimated share of overlapping debt is not significant and has not been included above.

¹ The percentage of overlapping debt applicable is estimated using assessed valuations. The City of El Dorado's assessed valuation was multiplied by the percentage of property owners in each taxing entity's jurisdiction, and the resulting amount was divided by each entity's assessed valuation.

In 2013, the Convention and Visitor's Bureau was transferred from El Dorado Inc. to the City. There was one employee in that department as of December 31, 2013 and plans to add a part time employee in 2014. Also, the judge's position was changed from full-time to contract.

In 2015, the Code Enforcement Officer was transferred from the Building Department to the Police Department and trained as an officer. The FTE's from Prairie Trails and Forrestry are included in the Recreation number.

In 2017, the Police Department and Public Utilities Department struggled to maintain a full staff. Data Processing eliminated the position of Administrative Assistant to the City Manager.

In 2020, the City of El Dorado moved the majority of employees from Public Works to Major Streets due to requirements of the Highway funds. The Building Maintenance position was moved to environmental services (Health and Sanitation) and the Department Director and Administrative Assistant were moved to refuse.

² Note: The Prairie Trails pool was filled in due to lack of attendance and desire to maintain a failing structure.

SINGLE AUDIT SECTION

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the City Commission
City of El Dorado, Kansas
El Dorado, KS

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the *Kansas Municipal Audit and Accounting Guide* and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **City of El Dorado, Kansas**, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise **City of El Dorado, Kansas'** basic financial statements, and have issued our report thereon dated **July 18, 2022**.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered **City of El Dorado, Kansas'** internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of **City of El Dorado, Kansas'** internal control. Accordingly, we do not express an opinion on the effectiveness of **City of El Dorado, Kansas'** internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether **City of El Dorado, Kansas'** financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Directors
City of El Dorado, Kansas
El Dorado, Kansas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited **City of El Dorado, Kansas'** compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of **City of El Dorado, Kansas'** major federal programs for the year ended December 31, 2021. **City of El Dorado, Kansas'** major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, **City of El Dorado, Kansas** complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2021.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of **City of El Dorado, Kansas** and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of **City of El Dorado, Kansas'** compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to **City of El Dorado, Kansas'** federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on **City of El Dorado, Kansas'** compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance and will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about **City of El Dorado, Kansas'** compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding **City of El Dorado, Kansas'** compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of **City of El Dorado, Kansas'** internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of **City of El Dorado, Kansas'** internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in

internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
